Series Preface p. v
Preface p. vii
Dedication p. ix
List of Contributors p. xi
Preloading and Vertical Drains
Experience of Consolidation Process from Test Areas with and without Vertical Drains p. 3
Theoretical and Numerical Perspectives and Field Observations for the Design and Performance Evaluation of Embankments Constructed on Soft Marine Clay p. 51
Application of the Vacuum Preloading Method in Soil Improvement Projects p. 91
Key Issues in the Application of Vertical Drains to a Sea Reclamation by Extremely Soft Clay Slurry p. 119
Two Case Histories of Vertical Drains in Very Soft Clays p. 145
Case Study of Ground Improvement Work at the Suvarnabhumi Airport of Thailand p. 159
Predictions and Observations of Soft Clay Foundations Stabilized with Geosynthetic Drains and Vacuum Surcharge p. 199
Application of Analytical Method for Preloading Design of Selected Case Studies p. 231
The Changi East Reclamation Project in Singapore p. 247
Modification by Chemical Admixtures
Cement/Lime Mixing Ground Improvement for Road Construction on Soft Ground p. 279
A Full-Scale Study on Cement Deep Mixing in Soft Bangkok Clay p. 305
Undersea Tunnel-Effect of Drainage and Grouting p. 327
Use of Jet Grouting in Deep Excavations p. 357
A Case History of Jet Grouting in Marine Clay p. 371
Performance Evaluation of Road Pavements Stabilised In Situ p. 409
Physical Modification Methods including Grouting, Compaction and Drainage
Ground Improvement for Mitigating Liquefaction-Induced Geotechnical Hazards p. 447
Placing Soil Covers on Soft Mine Tailings p. 491
Geotechnical Aspects of Hydraulic Filling of Underground Mine Stopes in Australia p. 513
Deep Vibratory Compaction of Granular Soils p. 539
Soft Ground Treatment and Performance, Yelgun to Chinderah Freeway, NSW, Australia p. 563
Ground Improvement using Deep Vibro Techniques p. 601
Implementation and Performance of Stone Columns at Penny's Bay Reclamation in Hong Kong p. 639
Failures of Ground Improvement Works in Soft Ground p. 665
Characteristics of Soft Peats, Organic Soils and Clays, Colombo-Katunayake Expressway, Sri Lanka p. 681
Treatment of Metastable Loess Soils: Lessons from Eastern Europe p. 723
Modification by Geosynthetic and other Inclusions
The Use of Alternative and Improved Construction Materials and Geosynthetics in Pavements p. 765
