cGMP Phosphodiesterase
Purification of Bovine Retinal cGMP Phosphodiesterase
Specific Peptide Probes for G-Protein Interaction with Effectors Adenylyl Cyclases

Determination of Adenylyl Cyclase Catalytic Activity Using Single and Double Column Procedures
Preparation and Use of P-Site-Targeted Affinity Ligands for Adenylyl Cyclases
Regulation of Ca2+-Sensitive Adenylyl Cyclases by Calcium in Vitro and in Vivo
Gi Assays in Transfected Cells
Expression and Purification of Recombinant Adenylyl Cyclases in Sf9 Cells
Transient Expression Assays for Mammalian Adenylyl Cyclases
Identification of Adenylyl Cyclases by Amplification Using Degenerate Primers

Phospholipases C
Assays for G-Protein Regulation of Phospholipase C Activity
Chloride Current ASSay for Phospholipase C in Xenopus Oocytes
Use of Cytosol-Depleted HL60 Cells for Reconstitution Studies of G-Protein-Regulated Phosphoinositide-Specific Phospholipase C-(I Isozymes
Purification of Phosphatidylinositol Transfer Protein from Brain Cytosol for Reconstituting G-Protein-Regulated Phosphoinositide-Specific Phospholipase C-(II Isozymes

Stimulation of Phospholipase C by G-Protein (I) Subunits
Purification of G-Protein-Regulated Phospholipase C from Turkey Erythrocytes
Phospholipase C Activity in Dictyostelium discoideum Using Endogenous Nonradioactive Phosphatidylinositol 4,5-Bisphosphate as Substrate
Purification of Phospholipase C-(II from Rat Brain
Characterization of Phospholipase C Isozymes in Bovine Retina: Purification of Phospholipase C-(II
Purification of 110 kDa Phosphoinositide Phospholipase C Activated by G-Protein (I) Subunits
Amplification of Phosphatidylinositol-Specific Phospholipase C-(I Isoforms Using Degenerate Primers Growth and Transformation
Analysis of Guanine Nucleotides Associated with Protooncogene Ras
Measuring Activation of Kinases in Mitogen-Activated Protein Kinase Regulatory Network
Transcriptional Activation Analysis of Oncogene Function

Biological Assays for Cellular Transformation. Ions and Channels
Monitoring of Receptor-Mediated Changes in Intracellular Calcium at the Cellular and Subcellular Levels by Microfluorimetry and Imaging
Combination of Microfluorimetric Monito

Table of Contents provided by Blackwell's Book Services and R.R. Bowker. Used with permission.
