

Preface	p. ix
Some Abbreviations and Acronyms Used in the Text	p. xi
Metals and Minerals: Global Trends, Outlook, and Mineral Exploration	
General	p. 1
Emerging Economies of the New World	p. 4
Program for Progress	p. 6
Recycling and Conservation	p. 7
Some Environmental Benefits of Metals Recycling	p. 9
Substitution	p. 9
Global Flow of Metals and Minerals	p. 10
Global Demand of Mineral Resources up to 2050	p. 13
Shifting Markets Create New Opportunities	p. 15
The Great Fall of China and Global Volatility	p. 17
Challenges of Developing Adequate Supply of Minerals	p. 18
The Need for Intense Mineral Exploration	p. 19
References	p. 20
Mineral Deposits: Types and Associations	
Introduction	p. 24
Definitions	p. 24
The Rock Cycle	p. 25
Rock-Forming Minerals	p. 25
Ore Body	p. 26
Formation of Mineral Deposit	p. 26
Chemical and Physical Controls of Ore Deposition	p. 27
Ore Deposit Types	p. 28
Composition of the Deposit	p. 29
Classification Based on Form	p. 40
Classification Based on the Theory of Origin	p. 40
Classification Based on Ore Formation Processes and Element Associations	p. 43
Placers	p. 44
Metallogenic Provinces and Epochs	p. 48
Metallogenic Provinces in Relation to Plate Tectonic Setting	p. 50
References	p. 52
Reconnaissance and Prospecting	
Reconnaissance	p. 54
Reconnaissance Map	p. 55
Reconnaissance Survey	p. 56
Geological Survey	p. 56
Geological Mapping	p. 58
Digital Elevation Models	p. 60
Prospecting	p. 60

Prospecting Types	p. 63
Preliminary Field Trip	p. 63
Prospecting Methods	p. 64
Guides for Prospecting	p. 64
Classification of Guides	p. 65
Mineralogical Guides	p. 67
Stratigraphic and Lithologic Guides	p. 73
Structural Guides	p. 74
Geochemical Guides	p. 77
Animal Activity	p. 78
References	p. 78
Remote Sensing Techniques	
Introduction	p. 81
Remote Sensing	p. 82
Why Remote Sensing	p. 84
Major Remote Sensing Satellite Systems	p. 85
Radar and Thermal Infrared Sensors	p. 86
Digital Image Processing	p. 88
Application of Remote Sensing	p. 89
Advantages of Satellite Imageries	p. 91
Remote Sensing and Geographic Information System	p. 91
Remote Sensing Versus Aerial Photography/Photogrammetry	p. 92
Remote Sensing and Multispectral Imaging	p. 92
Remote Sensing Versus SONAR	p. 93
Remote Sensing Industry-Present Trends and Outlook	p. 93
References	p. 94
Geophysical Exploration	
Introduction	p. 98
Geophysical Methods and Targets	p. 99
Choice of a Technique	p. 99
Gravity Techniques-Gravity Gradiometry, Geodesy, Microgravity Surveys	p. 100
Magnetic Techniques	p. 101
Electromagnetic Methods	p. 105
Radiometric (Gamma Ray) Method-Aeroradiometric Surveys	p. 106
Seismic Methods	p. 107
Electrical Techniques	p. 107
Thermal Methods	p. 110
Remote Sensing Methods	p. 110
Borehole Geophysics (Geophysical Logging)	p. 110
Lithology Logs	p. 111
Ground Penetrating Radar Surveys	p. 111

Very Low Frequency Surveys	p. 112
Other Methods	p. 112
Geophysical Inversion Technique	p. 112
Emerging Geophysical Technique	p. 113
Airborne Geophysical Survey	p. 117
High-Definition Airborne Gravity Gradiometry	p. 120
Unmanned Aerial Vehicles	p. 120
Future Trends	p. 121
Marine Geophysical Exploration Survey	p. 121
Satellite Geophysics	p. 122
References	p. 122
Geochemical Exploration	
Introduction	p. 126
The Geochemical Cycle	p. 126
General Principles	p. 128
Geochemical Exploration Surveys	p. 131
Various Geochemical Exploration Surveys	p. 132
Other Advanced Techniques	p. 148
Design of Geochemical Survey	p. 149
Sampling for Geochemical Surveys	p. 150
Geochemical Maps	p. 151
Interpretation of Data	p. 151
Geochemical Data Processing	p. 152
Analysis of Exploration Data and Identifying Geochemical Anomalies	p. 153
Geochemical Survey Interpretation	p. 154
Typical Geochemical Exploration Program	p. 155
References	p. 157
Geological Exploration	
Introduction	p. 160
Minerals Activity Project	p. 160
Mineral Exploration	p. 162
Evolution of Exploration Technology	p. 163
Development of Exploration Technology	p. 164
Challenges for Mineral Exploration	p. 165
Designing an Exploration Approach	p. 166
The Exploration Cycle	p. 167
Environmental Impacts of Mineral Exploration and Development	p. 170
Mine Closure Plan	p. 171
Greenfields Versus Brownfields Exploration	p. 171
Resourcing the Future	p. 172
Project Funding	p. 172

Ingredients of a Successful Exploration Campaign	p. 174
Mineral Exploration and Development-Geographic Location	p. 176
Expected Revenues, Costs, and Risks	p. 177
Exploration Expenditure	p. 179
Discovery Depends Upon Various Factors	p. 183
Mineral Exploration Under Deep Cover	p. 189
Interpretation and 3D Modeling	p. 191
Economic Concepts for Exploration Strategy	p. 192
Research and Training	p. 194
Scarcity of Exploration Geoscientists	p. 196
References	p. 197
Drilling	
Introduction	p. 200
Categories of Drilling Rig	p. 201
Drilling Methods	p. 201
Selection of Drill	p. 205
Selection of Drilling Fluid	p. 206
Selection of Pump	p. 206
Exploration Drilling Methods	p. 207
The Coiled Tubing Drill Rig	p. 212
Samples From Drilling Campaign	p. 214
Core Recovery	p. 215
Core Storage	p. 216
Core Splitting	p. 216
Cote Logging	p. 217
High-Tech Core Scanning and Interpretation	p. 218
Deductions From Drill Core Samples	p. 219
Portable XRF Analyzer	p. 221
Deviation of Drill Holes	p. 222
Directional Core Drilling	p. 223
Surveying Boreholes	p. 224
Drill Sections	p. 226
Planning a Drill Campaign	p. 228
Drilling for Sampling Purposes	p. 229
Angle of Intersection	p. 230
Drilling for New Ore	p. 230
When to Stop Drilling	p. 231
Appendix	p. 232
References	p. 234
Sampling and Analysis	
Introduction	p. 236

Sampling	p. 236
Geological Sampling Methods	p. 238
Criteria for the Selection of a Sampling Procedure	p. 242
Collection of Samples	p. 242
Errors in Sampling	p. 243
Preparation of Samples	p. 243
Screening and Particle Size Distribution	p. 247
Sample Preparation Methods for Analysis	p. 247
Analysis of Geochemical Samples	p. 249
High-Quality Analyses for Exploration	p. 252
Sources of Error	p. 253
Appendix: Gy's Sampling Reduction Formula	p. 253
References	p. 254
Geographic Information System and Common Earth Model	
Geographic Information System	p. 257
Common Earth Model	p. 265
3D&4D GIS Geomodeling	p. 267
Common Earth Model at Exploration Stages	p. 268
References	p. 268
Conventional and Statistical Resource/Reserve Estimation	
Introduction	p. 272
Conventional Resource/Reserve Estimation	p. 272
Drawbacks of Conventional Resource/ Reserve Estimation	p. 275
Statistical Resource/Reserve Estimation	p. 276
Characterization of a Distribution	p. 278
Probability Models	p. 280
Graphical Estimation of Logarithmic Mean and Logarithmic Variance	p. 286
Numerical Estimation of Logarithmic Mean and Logarithmic Variance	p. 287
Estimation of Average of a Mineral Deposit	p. 287
Estimation of Central 90% Confidence Limits of Mean of a Lognormal Population	p. 287
Number of Samples	p. 287
Demerits of Statistical Resource/Reserve Estimation	p. 288
References	p. 288
Geostatistical Resource/Reserve Estimation	
Background	p. 290
Geostatistics	p. 290
Random Function	p. 290
Regionalized Variable	p. 291
Why Geostatistics	p. 291
Semivariogram Function	p. 292
Mathematical Models of Semivariogram	p. 294

Kriging: Concepts and Applications	p. 297
Integrated Geostatistical Modeling Process	p. 299
Mineral Inventory	p. 304
Grade-Tonnage Relations	p. 304
A Step-by-Step Summary for an Integrated Geostatistical Study	p. 304
Geostatistics in Mineral Industry	p. 307
Limitations of Use of Geostatistics	p. 307
References	p. 308
Mineral Resources Classification	
Introduction	p. 309
History of the Development of Reporting Standards	p. 311
Exploration Results	p. 312
Competent Person and Responsibility	p. 312
Mineral Resource Classification	p. 312
The JORC Code	p. 314
Reporting Terminology	p. 314
Codification of UNFC System	p. 314
The Russian Federation Classification System	p. 316
The Chinese Reserve and Resource Reporting System	p. 317
References	p. 320
Valuation of Mineral Properties	
Introduction	p. 321
Periodic Change in Mineral Property Values	p. 322
Exploration Assets and the Exploration Procedure	p. 323
Valuation Techniques, Approaches, and Methodology	p. 324
Mineral Valuation Codes	p. 335
Concluding Remarks	p. 335
References	p. 337
Appendix: Case Study of Rampura-Aguicha Zinc-Lead Deposit, India	p. 339
Index	p. 391
