Historical Overview
Following the Trail of Epinephrine from the Periphery to the Brain
The Changing Face of Research on Epinephrine

Morphology of Brain Epinephrine Systems
Central Phenylethanolamine N-Methyltransferase-Immunoreactive Neurons: Distribution, Projections, Fine Structure, Ontogeny and Coexisting Peptides
Morphometric Studies of Epinephrine and Neuropeptide Y (NPY) Costoring Neurons in the Rat Brain
Mapping the Alpha Adrenergic Receptor in the Central Nervous System: A Guide to Structure and Function
Connectivity and Ultrastructure of Nonadrenergic and Adrenergic Neurons in the Medulla Oblongata

Regulation and Genetics of Adrenergic Systems
Inheritance of Epinephrine Formation Rates and Phenylethanolamine N-Methyltransferase Structural Heterology in Inbred Rat Strains
Molecular Basis for the Difference in Buffalo and Fischer Rat PNMT Expression
Steroid Control of Neurotransmitter Synthesis: Glucocorticoid Regulation of Phenylethanolamine N-Methyltransferase
Brain Epinephrine in Hypertension and Stress

Pharmacological Approaches to Adrenergic Systems
Approaches to the Design of Selective Inhibitors of Phenylethanolamine N-Methyltransferase (PNMT): Development of an Active Site Model for PNMT
Biochemical Pharmacology of Brain Epinephrine Neurons: Comparison with Nonepinephrine Neurons
Regulation of Anterior Pituitary Hormone Secretion by Brain Epinephrine
Epinephrine and CRF Stimulate ACTH Release and Proopiomelanocortin Gene Expression

Central Epinephrine Neurons and Alpha-2 Adrenoceptors
Modulation of Epinephrine Release from Adrenal Medulla by Gamma-Aminobutyric Acid

Brain and Peripheral Adrenoceptors
Subtypes of Alpha-2 Adrenoceptors in Human and Rat Brain
Agonist-Regulated Metabolism of Alpha- and Beta-Adrenoceptors
Functional Association Between Epinephrine Neurons and Alpha-2 Adrenoceptors in Discrete Brain Areas: Analysis in Inbred Rat Strains
Regulation of Brain Stem and Platelet Alpha-2 Adrenoceptors
The Beta-Adrenergic Receptor-Coupled Adenylate Cyclase System
Modification of Guanine Nucleotide Actions on Receptors and Adenylate Cyclase
Central and Peripheral Alpha-2 and Beta Adrenoceptor Changes Induced by Antidepressant Treatments
Adrenergic Neuron Electrophysiology and Behavior
Inhibitory Synaptic Transmission Mediated by Catecholamines

Bulbospinal Epinephrine
