Foreword
Preface
What are Juvenile Primates All About?
Why Be Juvenile?
Juvenility in Animals
Evolution of the Juvenile Period in Mammals
On the Evolution of Juvenile Lifestyles in Mammals
Ecological Risk Aversion in Juvenile Primates: Slow and Steady Wins the Race
Growing into Different Worlds
Spatial Position and Behavioral Sex Differences in Juvenile Long-tailed Macaques
Juvenile Male Emigration from Natal One-Male Troops in Hanuman Langurs
Consequences of Sex Differences in Dispersal for Juvenile Red Howler Monkeys
Juveniles in Nongregarious Primates
Growing Up in a Patrifocal Society: Sex Differences in the Spatial Relations of Immature Muriquis
Behavior of Juvenile and Adolescent Great Apes
Developing Skills and Relationships for Later Use
Diet and Social Organization of a Free-Ranging Spider Monkey Population: The Development of Species-Typical Behavior in the Absence of Adults
Primate Juveniles and Primate Play
Stability of Social Relationships in Female Wedge-Capped Capuchin Monkeys
Juvenile Vervet Monkeys: Establishing Relationships and Practicing Skills for the Future
Interactions between Juveniles and Adult Males in Vervets: Implications for Adult Male Turnover
Managing Social Conflict and the Development of Dominance Relationships
Early Agonistic Experience and the Onset of Matrilineal Rank Acquisition in Japanese Macaques
Codevelopment of Dominance Relations and Affiliative Bonds in Rhesus Monkeys
Patterns of Reconciliation among Juvenile Long-tailed Macaques
Agonistic Interaction, Dominance Relations, and Ontogenetic Trajectories in Ring-tailed Lemurs
Comparative Socioecology of Childhood
The Lives of Hunter-Gatherer Children: Effects of Parental Behavior and Parental Reproductive Strategy
Behavioral Sex Differences in Children of Diverse Cultures: The Case of Nurturance to Infants
Biocultural Interactions in Human Development
Epilogue: Juvenile Primates: Dimensions for Further Research
