Contributors Organizers of Symposium and Chairmen of Sessions

Introduction
The Biology of Terrestrial Isopods: Terminology and Classification, D.M. Holdich et al
Structure and Physiology
The Cuticular Surface of Woodlice: A Search for Receptors
Eco-morphological Strategies in Terrestrial Isopods
The Marsupium in Terrestrial Isopods
Fine-structure Investigations of the Pleopodal Endopods of Terrestrial Isopods with some Remarks on their Function
Cuticular Transpiration in the Isopod Porcellio laevis: Chemical and Morphological factors Involved in its Control
Neuroendocrinology of Growth and Moulting in Terrestrial Isopods
Sex Differentiation and Androgenic Gland Hormone in the Terrestrial Isopod Armadillidium vulgare
Heavy Metals in Woodlice
The Influence of Nutritional Stress on the Ultrastructure of Hepatopancreas of Terrestrial Isopods
The Ultrastructure of the Hindgut Epithelium of Terrestrial Isopods and Its Role in Osmoregulation
An Ultrastructural Study of Cell Differentiation and Associated Acid Phosphatase Activity in the Hepatopancreas of Porcellio scabari
Haemodynamics of Terrestrial Isopoda
Diseases of Terrestrial Isopods
Ecophysiological Adaptations of Terrestrial Isopods: A Brief Review, Wolfgang Wieser Population Biology and Behaviour
Life Histories of Terrestrial Isopods: a Study of Intra- and Interspecific Variation

Population Dynamics and Role in Hemilepistus reaumuri (Audouin and Savigny) in a Desert Ecosystem
Breeding and Population Biology of the Terrestrial Isopod, Porcellio laevis (Latreille), in the Delhi Region
The Effect of Climate on the Distribution and Abundance of Isopods
Observations on the Distribution of the Desert Woodlouse Hemilepistus reaumuri (Crustacea, Isopoda, Oniscidea) in North Africa
The Aggregation Phenomenon in Terrestrial Isopods
Orientation Behaviour of the Desert Woodlouse Hemilepistus reaumuri: Adaptations to Ecological and Physiological Problems
Comparative Studies on the Social Behaviour of the Desert Isopod Hemilepistus reaumuri and of a Porcellio Species
Nutrition and Growth of Ligia pallasii
Breeding Phenology of Woodlice and Oostegite Development in Ligia oceanica (L.) (Crustacea)
Feeding Behavior of Terrestrial Isopods in Relation to Plant Defences and Microbial Activity
