

An initial word about 'folk physics'

Preface

Folk physics cannot be assumed

Escaping the argument by analogy

Causality, tool use, and folk physics: a comparative approach

The trap-tube problem

The trap-table problem

The inverted- and broken-rake problems

The flimsy-tool problem

The tool-insertion problem: the question of shape

The rope, hook-retrieval, touching-stick, and related problems: the question of physical connection

The support problem: physical connection revisited

The bendable-tool and tool-construction problems: the question of tool modification

Toward a folk physics for chimpanzees
