The Nature Of Risks
Background on Risks
Sources of Risks
Adverse Effects
Defensive Measures
Guide to Summary Tables
Reliability And Safety Problems
Communication Systems
Problems in Space
Defense
Civil Aviation
Trains
Ships
Control-System Safety
Robotics and Safety
Medical Health and Safety
Electrical Power
Computer Calendar Clocks
Computing Errors
Security Vulnerabilities
Security Vulnerabilities and Misuse Types
Pest Programs and Deferred Effects
Bypass of Intended Controls
Resource Misuse
Other Attack Methods
Comparison of the Attack Methods
Classical Security Vulnerabilities
Avoidance of Security Vulnerabilities
Causes And Effects
Weak Links and Multiple Causes
Accidental versus Intentional Causes
Security And Integrity Problems
Intentional Misuse
Security Accidents
Spoofs and Pranks
Intentional Denials of Service
Unintentional Denials of Service
Financial Fraud by Computer
Accidental Financial Losses
Risks in Computer-Based Elections
Jail Security
