General Concepts
Beyond geometric and logical descriptions of space: A functional description
The geometric description of space
The logical description of spatial propositions
A functional description of spatial prepositions
The asymmetry of spatial relations
Target and landmark
The relation of landmark and speaker
Directional and functional prepositions
The representation of objects
The idealization of the terms of a spatial relation
Intrinsic orientation of objects
The contextual orientation of objects
Concepts involved in the description of spatial prepositions
The corpus of the description
Prepositional use
Complex primitives and language acquisition
Pragmatic bridges and language acquisition
Review
Spatial Prepositions5. The expressions près de / loin de and accessibility
The expressions près de / loin de and distance
Accessibility and the norm
The description of the expressions près de / loin de 5.4. A comparison of the expressions près de / proche de 6. Positions of the vertical axis
The vertical axis
The expressions au-dessus de / en dessous de 7. The prepositions devant / derrière and general orientation
General orientation
The prepositions devant / derrière and general orientation
The prepositional terms of the relations devant / derrière 7.4. The expressions en face de / dans le dos and frontal direction
The expressions à gauche / à droite and lateral orientation
The advantages of the lateral direction over the line of sight
The advantages of lateral orientation over lateral direction
La gauche / la droite 8.4. The prepositional terms of à gauche / à droite 9. The prepositions devant / derrière and access to perception
The prepositions avant / après and order along a scale
The prepositions avant / après and relative movement
Potential encounter
The expressions en avant / en arrière. The distributions of avant / après and devant / derrière. The preposition à and localization

The formal properties of the preposition à. The prepositions à and localization

The preposition à and integrated landmarks

Conclusions

The prepositions sur / sous and the bearer / burden relation

Characteristics of the prepositions sur / sous. The bearer / burden relation and the impetus of the prepositions sur / sous. The development of sous based on its impetus

Comparison of the prepositions à and sur. Comparison of the prepositions contre and sur

The relation between the prepositions derrière and sous. The prepositions dans / hors de and the container / contained relation

Topological relations between the objects of the prepositions dans / hors de. Total inclusion and partial inclusion

The expression hors de and movement

The container / contained relation

A comparison of the prepositions dans, sur, and sous

The expressions en dedans / en dehors

Conclusions
