Preface

Overview

A history of the study of ornithopods. Where have we been? Where are we now? and Where are we going?

New Insights into Hadrosaur Origins

Basal Neoiguanodontians from the Wealden of England: Do they contribute to the discussion concerning hadrosaur origins?

Osteology of the basal hadrosauroid Equijubus normani (Dinosauria, Ornithopoda) from the Early Cretaceous of China

Gongpoquansaurus mazongshanensis (Lü, 1997) comb. nov. (Ornithischia: Hadrosauroida) from the Early Cretaceous of Gansu Province, northwestern China

Postcranial anatomy of a basal hadrosauroid (Dinosauria: Ornithopoda) from the Cretaceous (Cenomanian) Woodbine Formation of North Texas

A re-evaluation of purported hadrosaurid dinosaur specimens from the 'middle' Cretaceous of England

A new hadrosaurid (Plesiohadros djadokhtaensis) from the Late Cretaceous Djadokhtan fauna of southern Mongolia

Hadrosauroid material from the Santonian Milk River Formation of southern Alberta, Canada

Hadrosaurid Anatomy and Variation

New hadrosaurid (Dinosauria, Ornithopoda) specimens from the lower-middle Campanian Wahweap Formation of southern Utah

New saurolophine material from the upper Campanian-lower Maastrichtian Wapiti Formation, west-central Alberta

Variation in the skull roof of the hadrosaur Gryposaurus illustrated by a new specimen from the Kaiparowits Formation (late Campanian) of southern Utah

A skull of Prosaurolophus maximus from southeastern Alberta and the spatiotemporal distribution of faunal zones in the Dinosaur Park Formation

Postcranial anatomy of Edmontosaurus regalis (Hadrosaurinae) from the Horseshoe Canyon Formation, Alberta, Canada

Cranial morphology and variation in Hypacrosaurus stebingeri (Ornithischia: Hadrosauridae)

Biogeography and Biostratigraphy

An overview of the latest Cretaceous hadrosauroid record in Europe

The hadrosauroid record in the Maastrichtian of the eastern Tremp Syncline (northern Spain)

Hadrosaurs from the Far East: historical perspective and new Amurosaurus material from Blagoveschensk (Amur region, Russia)

South American hadrosaurs: considerations on their diversity

The hadrosaurian record from Mexico

Stratigraphic distribution of hadrosaurids in the Upper Cretaceous Fruitland, Kirtland and Ojo Alamo formations, San Juan Basin, New Mexico

Relocating the lost Gryposaurus incurvimanus holotype quarry, Dinosaur Provincial Park, Alberta, Canada

Function and Growth
