Vagueness

Vagueness: an exercise in logical analysis

Introduction

Vagueness described

Location of the fringe

Is vagueness subjective?

Definition of the consistency-profile

Vagueness and logic

Truth and vagueness

The sorites paradox

Wang’s paradox

Vagueness, truth and logic

The truth-value approach

An alternative framework

The super-truth theory

The logic of vagueness

Higher-order vagueness

Language-mastery and the sorites paradox

Truth, belief and vagueness

Further reflections on the sorites paradox

The governing view and the sorites paradox

Accepting the paradox

Resolving the paradox by jettison of the first claim of the governing view

Tolerance and observationality

Higher-order vagueness and the No Sharp Boundaries paradox

The governing view and the major premises

Conclusion

Concepts without boundaries

Vagueness and ignorance

Sorites paradoxes and the semantics of vagueness

Vagueness by degrees
