Vasculitis - The Neurologist's View p. 217
Treatment of Chronic Idiopathic Systemic Vasculitides p. 227
Monoclonal Antibody Therapy for Vasculitis p. 235
Heterogeneity of ANCA Sera Showing Atypical, Peripheral and Classical Cytoplasmic Immunofluorescence Patterns p. 239
ANCA in Systemic Vasculitides, Collagen Vascular Diseases, Rheumatic Disorders and Inflammatory Bowel Diseases p. 245
Perinuclear Antineutrophil Cytoplasmic Antibodies (P-ANCA): Clinical Significance and Relation to Antibodies against Myeloid Lysosomal Enzymes p. 253
Methods of Detection of Anticathepsin G Autoantibodies in Human p. 257
Anti-Myeloperoxidase Antibodies and Associated Diseases p. 263
Autoantibodies Directed against Lysozyme: A New Target Antigen for Anti-Neutrophil Cytoplasmic Antibodies (ANCA) p. 267
Clinical Significance of ANCA in 98 Patients p. 273
Anti-Neutrophil Cytoplasmic Autoantibodies (ANCA): Antigenic Specificities and Clinical Associations p. 281
Significance of Autoantibodies to Purified Proteinase 3 in Systemic Vasculitis p. 287
Characterization Anti-Myeloperoxidase Antibodies in Vasculitis p. 291
Low Predictive Value of c-ANCA and Anti-[alpha]-Granule Antibody for Vasculitis in Hong Kong p. 295
Detection and Clinical Associations of Autoantibodies to Myeloid Granular Proteins p. 299
Relationship between Disease Activity and ANCA Level by ELISA in the Long-Term Management of Vasculitis p. 303
ANCA in Ocular Inflammatory Disorders p. 305
Head and Neck Involvement in Wegener's Granulomatosis (WG) p. 309
Orbital Involvement in Wegener's Granulomatosis p. 315
MRI of the Head in Wegener's Granulomatosis p. 319
The Clinical, Serologic, and Immunopathologic Heterogeneity of Cutaneous Leukocytoclastic Angiitis p. 323
No ANCA in Thromboangiitis Obliterans (Burger's Disease) p. 327
Alpha-1-Proteinase Inhibitor and Pulmonary Haemorrhage in Systemic Vasculitis p. 331
Alpha-1-Antitrypsin, CRP and Interleukin-6 in ANCA-Positive Vasculitis p. 337
Pro- and Anti-Inflammatory Cytokines in Primary Systemic Vasculitis p. 341
Problems of Classification in Necrotizing Vasculitis p. 345
Anti-Neutrophil Cytoplasm Antibodies in HIV Infections p. 349
Anti-Neutrophil Cytoplasmic Antibodies (ANCA) and Infection p. 353
Anti-Lactoferrin Antibodies in Patients with Rheumatoid Arthritis with Vasculitis p. 357
Anti-Neutrophil Cytoplasmic Antibodies in Giant Cell Arteritis and Polymyalgia Rheumatica p. 363
Antibodies to Neutrophil Cytoplasmic Antigens in Rheumatoid Arthritis p. 367
Incidence and Specificity of p-ANCA in Rheumatic Diseases p. 371
Anti-Granulocyte Perinuclear Antibodies but not Anti-Neutrophil Cytoplasmic Antibodies (ANCA) in Rheumatoid Arthritis p. 375
Anti-Neutrophil Cytoplasmic Antibodies in Patients with Systemic Lupus Erythematosus p. 381

ANCA with Specificity for Lactoferrin in Systemic Lupus Erythematosus (SLE) p. 385

Serum Markers of T-Cell Activation in Relapses of Wegener's Granulomatosis p. 389

Presence of Anticardiolipin Antibodies Discriminates between Wegener's Granulomatosis and Microscopic Polyarteritis p. 393

Increased Expression of CD25 and Adhesion Molecules on Peripheral Blood Lymphocytes of Patients with Wegener's Granulomatosis (WG) and ANCA Positive Vasculitides p. 397

Wegener's Granulomatosis with Severe Peripheral and Central Neuropathy - Case Report p. 405

Limited Prognostic Value of Changes in Antineutrophil Cytoplasmic Antibody Titers in Patients with Wegener's Granulomatosis p. 411

Wegener's Granulomatosis and Henoch-Schonlein Purpura in a Family with Hereditary C4 Deficiency p. 415

Little Evidence for Anti-Endothelial-Cell Antibodies in Microscopic Polyarteritis and Wegener's Granulomatosis p. 419

Prevalence of ANCA in Patients on Maintenance Haemodialysis p. 423

Rhabdomyolysis in Vasculitis p. 427

Association between Silica Exposure and Necrotizing Crescentic Glomerulonephritis with p-ANCA and anti-MPO Antibodies: A Hospital-Based Case-Control Study p. 435

ANCA and Anti-GBM Antibodies in RPGN p. 441

p-ANCA with Myeloperoxidase Antibodies and c-ANCA with Proteinase 3 Antibodies Define a Different Vasculitis Entity in Patients with Renal Involvement p. 445

Antineutrophil-Cytoplasmic-Autoantibodies in Poststreptococcal Nephritis p. 449

Identification of Apparent Dual ANCA Specificities in a Subset of Patients with Systemic Vasculitis and Crescentic Glomerulonephritis p. 455

c-ANCA and p-ANCA Positive Vasculitis with Crescentic Glomerulonephritis: The Same Clinical Feature but Different Immunological Pathways? p. 461

Clinical Manifestations in Patients on Chronic dialysis with High Titres of ANCA p. 465

Pooled Intravenous Immunoglobulin in the Management of Systemic Vasculitis p. 469

Cyclosporin A Therapy for Wegener's Granulomatosis p. 473

Necrotizing Vasculitis - Relapse Despite Cytotoxic Therapy p. 477

Effectiveness of Cyclophosphamide Pulse Treatment in Wegener’s Granulomatosis p. 483

Treatment of Wegener’s Granulomatosis with Intravenous Immunoglogulin p. 487

Treatment of Wegener’s Granulomatosis p. 491

Treatment Modalities and ANCA in Takayasu's Arteritis p. 497

Late Recurrence of Systemic Vasculitis after Kidney Transplantation Involving the Kidney Allograft p. 503

P-ANCA of Undefined Specificity in Ulcerative Colitis: Correlation to Disease Activity and Therapy p. 507

Anti-Neutrophil cytoplasmic Auto-Antibodies (ANCA) in Patients with Ulcerative Colitis (UC): Influence of Disease Activity and Familial Study p. 515
