Chemotactic and Inflammatory Cytokines: CXC and CC Proteins p. 1
Induction of Chemotactic Cytokines by Minimally Oxidized LDL p. 13
The Immunopathology of Chemotactic Cytokines p. 19
Receptor/ligand Interactions in the C-C Chemokine Family p. 29
Adhesion Molecules in Acute and Chronic Lung Inflammation p. 39
Monocyte Chemotactic Protein-1 (MCP-1) Signal Transduction and Involvement in the p. 47
Regulation of Macrophage Traffic in Normal and Neoplastic Tissues
Secretion of Monocyte Chemoattractant Protein-1 (MCP-1) by Human Mononuclear p. 55
Phagocytes
L-arginine/nitric Oxide Pathway: A Possible Signal Transduction Mechanism for the p. 65
Regulation of the Chemokine IL-8 in Human Mesangial Cells
Some Aspects of NAP-1/IL-8 Pathophysiology II: Chemokine Secretion by Exocrine p. 77
Glands
Molecular Mechanisms of Interleukin-8 Gene Expression p. 87
Basophil Activation by Members of the Chemokine Superfamily p. 99
Monocyte Chemotactic Proteins Related to Human MCP-1 p. 111
Platelets Secrete an Eosinophil-chemotactic Cytokine which is a Member of the CC p. 119
Chemokine Family
Neutrophil activating Peptide ENA-78 p. 129
The Effects of Human Recombinant MIP-1[alpha], MIP-1[beta] and RANTES on the p. 139
Chemotaxis and Adhesion of T Cell Subsets
Promiscuity of Ligand Binding in the Human Chemokine Beta Receptor Family p. 147
Structural and Functional Characterization of the Interleukin-8 Receptors p. 155
Elucidation of Structure Function Relationships in the IL-8 Family by X-ray p. 171
Crystallography
Overview of Chemokines p. 183
Regulation of Cytokine Secretion by Poxvirus Encoded Proteins p. 187
Interleukin-8 Expression in Gastric Cancer p. 188
Synergistic IL-8 Synthesis by Human Peritoneal Mesothelial Cells (HPMC) Following p. 188
IL-1[beta] and TNF[alpha] Treatment
Detection of a Potent Chemotactic Activity in Supernatants from Human Monocytes p. 189
Stimulated with Endothelin-1
Glioblastoma Secrete MCP-1, a Monocyte Chemotactic Factor p. 190
Neutrophil Chemotactic Activity in the Bronchoalveolar Lavage Fluid of Asthmatics p. 190
The Chemoattractant Properties of Interleukin-4 p. 191
IL-8 Induced Chemotaxis of Peripheral Neutrophils in Children with Cystic Fibrosis (CF) p. 191
Unusual Properties in Vitro and in Vivo of 198, an Antibody that Recognizes Rabbit CD11b p. 192
Effect of Monocyte Chemotactic Cytokine Gene Transfer on Macrophage Infiltration, p. 192
Growth and Metastatic Behaviour of a Murine Melanoma
Expression of Monocyte Protein-1 (MCP-1) by Monocytes and Endothelial Cells Exposed p. 193
to Thrombin
IL-8 Production During Urinary Tract Infections p. 194
NAP-1/IL-8 Receptor Expression on Human Neutrophils p. 194
Macrophage-derived Neutrophil Chemotactic Factor (MNCF) Induces Neutrophil Migration Through Lectin-like Activity

Interleukin-8 Release from Human PMN is Modified by Airborne Particulated Matter

Interleukin-8 Induces the Expression of HLA-DR Antigen on Human Keratinocytes

Cloning, Sequencing and Expression of Ovine Neutrophil-attractant Protein-1/IL-8 and Monocyte Chemotactant Protein-1

Inhibition of LPS-mediated Responses in Human Whole Blood by Recombinant Bactericidal/Permeability Increasing Protein

The Activity of IL-8 in Combination with GMCSF and TNF[alpha]

Induction of IL-8 in Inflammatory Bowel Disease

Elevated Circulating and Tissue IL-8 in Alcoholic Hepatitis

Expression of Monocyte Chemotactant Protein-1 in Basal Keratinocytes of Psoriatic Lesions

IL-8 Concentration of [actual symbol not reproducible]-Thalassaemia and after Bone Marrow Transplantation

Cytokine Production in Felty's Syndrome

The Lymphocyte Attractant Effects of Interleukins 1[alpha] and 8 Are Not Due to the Release of a Secondary Chemoattractant Factor

Serial Changes in Circulating Interleukin-8 and Neutrophil Elastase After Major Surgery

Role of Interleukin-8 in the Pathogenesis of Neutrophil-mediated Acute Lung Injury

Interleukin-8 in Severe Meningococcal Infections: Correlation with Severity of Disease

IL-6 and IL-8 Levels in Patients with Rheumatoid Arthritis

Plasma Interleukin 8 Levels in Patients with Septic Shock

Inhibitory Effect of Protease-inhibitor for Production of Interleukin-8 (IL-8) and Polymorphonuclear Leukocyte Elastase (PMNE)

Effect of Diluents and Capture Antibodies on Detection of NAP-1 by Sandwich ELISA

Do the Two Types of IL-8 Receptor on Human Neutrophils Mediate Different Cellular Responses?

Interleukin 8 Plays a Fundamental Role in Inflammatory Processes in Vivo

Endothelial Cell Binding of NAP-1/IL-8: Role in Neutrophil Emigration

Heparin Binding of NAP-1/IL-8: The Effect of Heparin and Related Glycosaminoglycans on in Vitro Neutrophil Responses to NAP-1/IL-8

The Effect of 5-Lipoxygenase Inhibitors on the Activity of IL-8

Chemotactic Cytokine Generation by Human Lung Microvascular Endothelial Cells: Differential Regulation by Gamma Interferon

The Effect of Haemofiltration on Circulating Cytokines in Children Undergoing Cardiopulmonary Bypass: A Preliminary Study

Interleukin-8 (IL-8) is Produced by the Bronchoalveolar Lavage Cell Population from Patients with Active but not Inactive Sarcoidosis

Gastric Interleukin-8 and Interleukin-8 IgA Autoantibodies in Helicobacter pylori Infection

Eosinophils from Allergic Individuals, but not Normal Individuals, Show Chemotactic Responsiveness to NAP/IL-8
Monocyte Chemotactic Peptide-1 and NAP-1/IL-8 Formation in Baboon Septicemia are Partially TNF Dependent

Increased Expression of Monocyte Chemoattractant Protein-1 (MCP-1) in Glomeruli from Rats with Anti THY 1.1 Glomerulonephritis

Role of Macrophage Inflammatory Protein (MIP)-1[alpha] in Granulomatous Inflammation

NAP-1/IL-8 is a Weak Inducer of T Cell Migration into Skin

IL-8 Stimulated Lymphocyte Locomotion in Antigen- or Mitogen-activated Mononuclear Cell Cultures

In Vivo Studies of Rantes and the Recruitment of Lymphocytes to Inflammatory Sites

IL-1 and TNF Induced Upregulation of IL-8 Receptors on Human Epidermal Cells

Promiscuity of Ligand Binding in the Chemokine Beta Receptor Family

Differentiation-specific Expression of a Novel G Protein-coupled Cytokine Receptor from Burkitt's Lymphoma

Signal Transduction by Monocyte Chemotactic Protein-1 (MCP-1) and Cross-desensitization with Other Members of the Chemokine-[beta] Subfamily in Human Monocytes

Mechanisms of Zymosan-induced IL-8 Generation in vivo

The Effects of Intranasal Challenge with Interleukin-8 (IL-8)

Interleukin-8 Down-regulates the Oxidative Burst Induced by Tumor Necrosis Factor Alpha in Neutrophils Adherent to Fibronectin

Identification of a Novel Tumor-derived Monocyte Chemotactic Factor: Relationship with Tissue Inhibitor of Metalloproteinase

[alpha]-Melanocyte Stimulating Hormone Inhibits Human Epidermal Cell and Polymorphonuclear Leukocyte Chemotaxis

MIP-1[alpha]: A Potent Stem Cell Inhibitor
