Diagnosis of BKVAN
Risk Factors for BKVAN
Clinical Management of BKVAN
Conclusion
Pharmacotherapeutic Options for the Management of Human Polyomaviruses
Abstract
Introduction
JC Virus
Progressive Multifocal Leukoencephalopathy
BK Virus
BKV-Associated Hemorrhagic Cystitis
Polyomavirus-Associated Nephropathy in Transplant Recipients
Targets for Pharmacotherapeutic Intervention
Specific Pharmacotherapeutic Intervention
Algorithms for Clinical Interventions
Conclusion
Leflunomide in Solid Organ Transplantation and Polyoma Virus Infection
Introduction
Clinical Pharmacology
Immunosuppressive Properties: Mechanisms of Immunosuppression
Anti-Viral Properties: In Vitro Activity of A77 1726
Reconciliation of Immune Suppression and Anti-Viral Activity
Leflunomide in BKN
Conclusion
JC Virus Can Infect Human Immune and Nervous System Progenitor Cells: Implications for Pathogenesis
Abstract
Introduction
JCV in the Immune System
JCV in the CNS
Therapeutic Purposes
Conclusion
The Polyomavirus, JCV, and Its Involvement in Human Disease
Abstract
An Introduction to JC Virus
The Life Cycle of JCV
Tropism of JCV
The Spread of JCV
JCV and PML
JCV and Cancer: Experimental Tumorigenesis
JCV and Cancer: Clinical Tumors
JCV Molecular Biology
