Foreword

Full Papers

Impact of Lifelong E-learning
Technologies and Educational Activities for Supporting and Implementing Challenge-Based Learning
An Integrated Content Modeling Approach for Educational Modules
Error Simulation in a Maturity Environment for Software Engineering Teaching
A Service-Oriented Infrastructure for Collaborative Learning in Virtual Knowledge Spaces
Applying New Educational Models in ICT Teaching and Learning
Media Stickiness and Cognitive Imprinting: Inertia and Creativity in Cooperative Work & Learning with ICTs
Teaching Modern Heuristics in Combinatorial Optimization
An e-Learning Application Based on the Semantic Web Technology
Linking Communities of Practice with Learning Communities in Computer Science Education
Some Experiences in Using Virtual Machines for Teaching Computer Networks
Trust in Virtual Teams: A Performance Indicator
"Aquatic Metaphors": an Innovative Interface for Virtual Learning Spaces
Influence of Individual Learning Styles in Online Interaction: a Case for Dynamic Frequently Asked Questions (DFAQ)
Instructing with Advanced Collaboration Technology:
Characterizing E-learning Practices in Companies
e-learning Activities in Educating e-business: a Pilot with a Process-Oriented e-learning Environment
Integrating Synchronous and Asynchronous Internet Distributed Education for Maximum Effectiveness
Structural Awareness for Collaborative Learning Environments
Meaning Making Through e-Learning
A Model to Design Multimedia Software for Learners with Visual Disabilities
Adult Learners in an Online College Class: Combining Efficiency and Convenience of E-learning
E-learning Tools and Web-resources for Teaching Reconfigurable Systems
Teaching for Blended Learning
Blending Projects Serving Public Education into Teacher Training
Understanding the Continued Usage of Business e-learning Courses in HK Corporations

Short Papers

Knowledge Details in Web Forums: How High or Low above the Ground?
Partial Distance-Learning Training for Information Technology Higher Education Trainers
Collaboration Model in E-Learning for Universities Based on Agents
Engineering Modular Web-based Education Systems to Support EML Units of Learning
Gesture Friendly Interfaces for Classroom Teaching with Thinking Tools
National Qualification Systems Integration using Ontologies
Research on Open Source Software Intended to Promote its Usage in Education p. 291

Use of Morphisms as a Tool to Help Learning Object Oriented Concepts p. 297

Student's Approach to Linear Programming Modeling p. 303

Web Teaching and Learning Programming Environment Based on Plan Method and Constructs p. 309

Some Aspects of Application of Software Agents in Information Retrieval in Virtual-Based Educational Environments p. 315

Remote Lab Experiments: Opening Possibilities for Distance Learning in Engineering Fields p. 321

Credibility: Norwegian Students Evaluate Media Studies Web Sites p. 327

A Collaborative Learning Approach And its Evaluation p. 333

Experiences From Virtual Learning in Upper Secondary Schools in Finland p. 339

Information Security in an E-learning Environment p. 345

Teaching Supervisory Control Based on a Web Portal and a System of Laboratory Tasks p. 351

Role of Online Supportive Environment in Professinal Development of IN-service Teachers - Case of TELMAE p. 357

An Intergrated Pedagogical Approach for Distance Learning Courses: Curriculum, ICT and Management p. 363

Is it Computer Literacy, IT, ICT or Informatics? p. 369

M-learning Standardization: Concepts and New Ideas about Learner Profile p. 375

Teaching IT to Managers or Teaching Management to Engineers? None of the Above p. 381

Implementing Use of ICT in Teacher Education p. 387

edu.LMC and Other LMC Simulation Approaches: Contributions to Computer Architecture Using the LMC Paradigm p. 393

Information Technology Literacy: Examples from Academia in Chile and Hawaii p. 399

A Staff Development Program for Promoting Change in Higher Education Teaching and Learning Practices p. 405

Intelligent Learning Objects: An Agent Approach to Create Interoperable Learning Objects p. 411

Posters, Demonstrations, and Workshops

Abstracts for Posters p. 423

Discovering Mathematical Concepts with Dynamic Software: A Demonstration. p. 429

Workshop on Informatics Education: Bridging the University/Industry Gap p. 431

Author Index p. 433
