Access Control
Towards Security in an Open Systems Federation p. 3
Type-Level Access Controls for Distributed Structurally Object-Oriented Database Systems p. 21
On the Chinese Wall Model p. 41

Formal Methods
Formal Methods and Automated Tool for Timing-Channel Identification in TCB Source Code p. 57
Separating the Specification and Implementation Phases in Cryptology p. 77
Formal Specification of Security Requirements using the Theory of Normative Positions p. 103

Invited Talk
Breaking the Traditional Computer Security Barriers p. 125

Authentication I
Verification and Modelling of Authentication Protocols p. 141
KryptoKnight Authentication and Key Distribution System p. 155
Associating Metrics to Certification Paths p. 175

Distributed Systems
An Object-Oriented View of Fragmented Data Processing for Fault and Intrusion Tolerance in Distributed Systems p. 193
The Development and Testing of the Identity-Based Conference Key Distribution System for the RHODOS Distributed System p. 209
Policy Enforcement in Stub Autonomous Domains p. 229

Authentication II
Freshness Assurance of Authentication Protocols p. 261
A Formal Framework for Authentication p. 273
Timely Authentication in Distributed Systems p. 293

Database Security
Polyinstantiation for Cover Stories p. 307
On Transaction Processing for Multilevel Secure Replicated Databases p. 329
Security Constraint Processing in Multilevel Secure AMAC Schemata p. 349

System Architectures
M superscript 2 S: A Machine for Multilevel Security p. 373
GDoM: a Multilevel Document Manager p. 393

Applications
UEPS - A Second Generation Electronic Wallet p. 411
A Hardware Design Model for Cryptographic Algorithms p. 419
ASAX: Software Architecture and Rule-Based Language for Universal Audit Trail Analysis p. 435

Author Index p. 451
