Understanding and Intelligence
Some aspects of Piaget's genetic approach to cognition
Moral development
Moral Development
Moral judgement and moral psychology: Piaget, Kohlberg and beyond
The psychology of moral obligation
Formal Operational Understanding
The distribution of Piagetian stages of thinking in British middle and secondary school children
Propositional Reasoning
Truth-functional logic in formal operational thinking
The Gou protocol revisited: a Piagetian contextualization of critique
Development and the isolation of variables scheme and 'natural experiment' contexts
The theory of formal operations - a critique
The acquisition of propositional logic and formal operational schemata during the secondary school years
Form and content in the development of deductive reasoning
Proportional Thinking
The development of proportional reasoning and the ratio concept. part 1 - differentiation of stages
Education and formal thought - a modest proposal
Cognition, instruction, development and individual differences
The balance-scale dilemma: either the subject of the experimenter muddles through

Infant Intelligence
Stage IV of Piaget's theory of infant's object concepts: a longitudinal study
Object disappearance and error in Piaget's stage IV task
Bring in order to the A-not-B error
Object Permanence in five-month-old-infants
Conservation of weight in infants
Psychology of animal cognition: Piagetian studies
Children's Thinking
Transitivity
The ontogeny of certain logical operations?
Development of concrete transitivity of length in children
Transitive interferences and memory in young children
What children do in spite of adults' hypotheses
Are children more logical than monkeys on the five-term series problem?
Functions, operations and decalage in the development of transitivity
Transitive inferences about spatial position by young children
Inclusion
An experimental study of the growth of some logical structures
Classes and collections: internal organization and resulting holistic properties
Class-inclusion developmental levels and logical necessity
Performance model analysis in class inclusion: an illustration with two language conditions
Effects of collection terms on class-inclusion and on number tasks
The development of quantitative thinking: a systematic replication of Piaget's studies
The distinctiveness of operativity as a measure of cognitive functioning in five-year-old children
Similar-sequence and similar-structure in retarded and non-retarded children's development
Teaching strategies and conservation tra
