Fitness test profiles of footballers
A comparison of fitness characteristics of elite and non-elite Gaelic football players
Profile of elite female touch football players
Fitness profile of professional rugby league players
A comparison of upper body strength in collegiate rugby players
Aerobic and anaerobic field testing of soccer players
Fitness profiles of English professional and semi-professional soccer players using a battery or field tests
Comparison of the physiological characteristics of the first, second and third league Turkish soccer players
Physiological characteristics of Turkish female soccer players

Metabolism and nutrition
The physiology of intermittent activity in football - J. Bangsbo. Fluid loss and replacement in English premier league soccer players
The influence of water ingestion on repeated sprint performance during a simulated soccer match
The influence of carbohydrate ingestion on repeated sprint performance during a simulated soccer match
The lipid profile of a rugby union football squad
Pattern of alcohol use in rugby players and rugby referees
Iron supplements are not required for rugby union football

Football training
Resistance training by senior rugby union players - just what do coaches think they're doing?
Rugby union players’ resistance training - an application of the transtheoretical model
The effect of pre-season training on the physiological characteristics of international rugby players
Effects of different pre-season preparations on lactate kinetics in professional soccer players
Endurance capacity of soccer players pre-season and during the playing season
Fitness profiles of professional soccer players before and after pre-season conditioning
An investigation into the fitness of professional soccer players over two seasons

Medical aspects of football
Footballers’ body checks
Injuries in American football
Lumbar spine abnormalities in American football linemen
The diagnosis and treatment of pulmonary pneumothorax in grid-iron football
Cervical spines of middle-aged soccer players: radiographic findings and computer simulation
Knee ligament injuries in soccer players
Injuries in rugby football
Effect of a fatigue task on absolute and relativised indices of isokinetic leg strength in female collegiate soccer players
Training and retraining muscle strength
Isokinetic assessment of rugby league players with groin problems
Paediatric science and football
Sports injuries and physical fitness in adolescent soccer play
