Problems Common to Cancer and its Therapy
Symptom Management and Palliative Care

Cancer Pain p. 565
Rehabilitation of Individuals with Cancer p. 579
Cachexia p. 591
Nausea and Vomiting p. 599
Oral Complications p. 609
Alopecia and Cutaneous Complications p. 625
Lymphedema p. 641
Fatigue p. 657
Caring for Patients at the End of Life p. 665

Hematologic Problems

Disorders of Blood Cell Production in Clinical Oncology p. 677
Diagnosis, Treatment, and Prevention of Cancer-Related Venous Thrombosis p. 693

Infections

Infection in the Patient with Cancer p. 717

Metabolic and Paraneoplastic Syndromes

Hypercalcemia p. 739
Hyponatremia p. 749
Tumor Lysis Syndrome p. 759
Paraneoplastic Neurologic Syndromes p. 767

Surgical Problems

Establishing and Maintaining Vascular Access p. 779
Acute Abdomen, Bowel Obstruction, and Fistula p. 792

Local Effects of Cancer and Its Metastasis

Superior Vena Cava Syndrome p. 803
Spinal Cord Compression p. 815
Brain Metastases and Neoplastic Meningitis p. 827
Bone Metastases p. 845
Lung Metastases p. 873
Liver Metastases p. 885
Effusions p. 925

Complications of Therapy

Neurologic Complications p. 945
Pulmonary Complications of Anticancer Treatment p. 969
Cardiac Effects of Cancer Therapy p. 983
Reproductive Complications p. 999
Endocrine Complications p. 1013
Second Malignant Neoplasms p. 1023
Special Populations

Cancer in the Elderly: Biology, Prevention, and Treatment p. 1039
Special Issues in Pregnancy p. 1049
