Quality of oocytes and embryos in patients with polycystic ovaries  

Poor embryo development and spontaneous pregnancy among idiopathic infertile couples - an enigma to solve  

The role of estrogen supplementation during the luteal phase in in vitro fertilization-embryo transfer cycles: a comparative study between progesterone alone and estrogen plus progesterone support  

ART in clinic of infertility Intermedica: 2 years experience  

Overall quality improvement of an IVF centre: usefulness of a quality system in reproduction  

Effect of cumulus cell removal on the fertilization and the day 3 embryo quality in human IVF  

Aromatase activity in granulosa cells as a predictor of pregnancy potential  

Faster embryo growth rate in vitro increases probability of pregnancy in assisted reproduction cycles  

Effect of oxygen concentration on early cleavage of human embryos in vitro  

Laser-assisted hatching - a "treatment of choice" for poor prognosis in "in vitro fertilization" women  

Blastocyst development in an extended embryo culture system after intracytoplasmic sperm injection  

Clinical application of vitrification on human blastocysts developed from supernumeral embryos in vitro  

Oocyte banking: does the period of storage affect ART outcomes?  

Stem cells from umbilical cord blood as a source for future genetic and therapeutic uses in patients from IVF donation programs  

Microdeletions of Y chromosome genes in infertile men  

Genetic testing experience of a private fertility clinic  

Post swim-up versus original sperm quality, and strict criteria morphology, it's influence on fertilization rate in in vitro fertilization program: a pilot study  

Computer-aided analysis of sperm chromatin stability of fertile and subfertile men after freeze-thawing  

Nature and origin of transient DNA strand breaks during spermiogenesis  

Morphologically normal sperm have significantly greater total-RNA content than abnormal sperm  

Acrosome reaction after ionophore challenge: relationship to sperm DNA integrity  

A novel and effective procedure for removing HIV-1 RNA from human semen  

A novel antibiotic cocktail for eliminating bacteria in human semen  

A study of conditions required for prolonged storage of human spermatozoa preserved by air-drying technique  

Coenzyme Q10 effects on non-enzymatic total antioxidant capacity in seminal plasma of varicocele patients  

Light and electron microscopic evaluation of antileukotriene therapy on human endometriosis  

Clinical approach for Iranian patients with endometriosis  

Impaired utero-tubal sperm transport in adenomyosis and endometriosis - a cause for infertility  

Endometriosis and the risk of malignancy, especially ovarian cancer  

...
Increased proteolysis in endometriotic tissue and endometrium in women who develop endometriosis may facilitate invasion p. 236

The role of VEGF and MMP-2 in the early stage of evolution of endometriosis p. 240

Expression of IL-18 in endometriosis p. 244

Development of an experimental model of endometriosis in rabbits p. 248

Routine office hysteroscopy in the investigation of infertile couples prior to assisted reproduction p. 255

What is the role of routine hysteroscopy in the evaluation of uterine cavity in infertile women? p. 259

Use of previous office hysteroscopy in IVF p. 263

Ultrasonographically controlled access to the abdominal cavity in infertility examination p. 266

Small uterine septa (AFS class 6) represent an important risk variable for preterm birth and spontaneous abortion p. 270

Experience with a new virtual reality laparoscopic trainer for reproductive surgery p. 274

Adhesion prophylaxis in gynecological operations p. 278

GnRH-agonists reduce cell proliferation and do not influence differentiation of uterine leiomyomata p. 283

Insulin-like growth factors in rat leiomyoma and leiomyosarcoma p. 287

Proinflammatory cytokines IL-1[beta], IL-8 and IL-6 in the follicular fluid of healthy women p. 291

Androgen excess, abnormal ovarian development and associated pathologies in genetically altered FORKO female mice: a paradigm for exploring hyperandrogenism p. 297

New FDA-approved woman-controlled, latex-free barrier contraceptive device "FemCap" p. 303

An open-label, multicenter, randomized, comparative, safety, efficacy, cycle control, and quality of life study of CTR 25, Alesse, and Ortho Tri-Cyclen p. 307

Menstrual irregularity and compliance in contraception: comparison between oral contraceptives and etonogestrel contraceptive implant p. 311

Reasons for discontinuation of depot medroxyprogesterone acetate p. 315

Prescribing oral contraceptives on cosmetic purpose in adolescents p. 319

Application of Beck's depression inventory for screening post-miscarriage psychiatric morbidity p. 325

The offspring sex ratio of surgeons in a Taiwan medical centre p. 329

Surveying of relationship between anxiety, depression and duration of infertility p. 334

Unbalanced sex ratio in newborns obtained by intrauterine inseminations p. 341

Controversies in gender selection p. 345

Health of ARTs babies and the responsibility toward the next generation p. 349

A qualitative study of individuals' attitudes regarding their cryopreserved embryos p. 353

The Victorian experience of administering donor birth registers p. 357

Comparison of transcervical CVS versus transvaginal transmyometrial CVS for prenatal diagnosis: experience with 244 cases at an infertility center in Iran p. 363
Therapeutic administration of hCG in pregnant women with preeclamptic risk p. 367
The incidence of preeclampsia and eclampsia in parturients who conceived in an in vitro fertilization programme p. 373
Increased risks of pregnancy complications and adverse infant outcomes associated with assisted reproduction p. 377
Relationship between pregnancy outcome and maternal BMI and weight gain p. 381
Study of sexual problems resulting from delivery in primiparous women p. 385
Use of the levonorgestrel-releasing intrauterine device for the symptomatic treatment of uterine myomas p. 389
Diagnostic Amsel criteria compared standardized method of Gram stain for the diagnosis of bacterial vaginosis p. 393
Anthropology of the menopause p. 397
A preliminary study of bone mineral density of right calcaneus in Filipino women using dual energy X-ray absorptiometry p. 403
Low height and low weight correlates better with osteoporosis than low body mass index in postmenopausal women p. 407
Usefulness of Blatt-Kupperman scale in depression diagnosis in post menopausal women p. 411
Breast cancer in menopausal women with hormonal replacement therapy p. 414
