Preface

Themes, Issues and Insights

Personal Reflections on Informatics in Education

Education and Informatics: From Discovery to Maturity

Psychological Aspects of Changes in Learning Supported by Informatics

Training Teachers for New Technology in Schools

Some Examples of the Use of Computing in French Schools

Seven Year's Later: Computers in Schools, once again

Thomash the Clown's Circus: Order in Action in Picture Languages

Informatics Games for Developing Children's Thinking Ability

Computer Science in Elementary and Secondary Schools

Telecommunication in Elementary Social Studies

Innovations in Mathematics Education Through Spreadsheets

Lego and Logo; Time and Space

Computer Assisted Teaching and Learning of Languages in French Secondary Schools: Some Changes in Learning

Technology Focuses the Mathematics Curriculum on Higher Level Thinking Skills

Learning About Dynamic Biological Systems - a Simulation and Modelling Approach

America's Restructured Schools Begin Training Global Citizens

Facilitating Changes in Learning with Electronic Communications

On the Integration of Multimedia Applications in Education

Computers and Learning: The Implications of Interactive Technologies

The Use of Information Technology to Support Information Access in Research

A Cooperative Environment for Learning: the Computer Classroom

The Interaction between Teacher and Computer in Elementary Education

Informatics and Changes in Learning: The American Dilemma - Opposing Epistemological Perspectives and Unanswered Questions

Attitudes toward Courseware as a Function of High School Students' Creativity Level

Students as Hypermedia Composers in a Constructivist Learning Environment

New Information Technologies - Implications for Significant Changes in Teacher Education

Integrating Computers and Curriculum in Secondary Education: A Strategic Approach

The Preparation of Teachers to Use Information Technology Across the Curriculum: A Critique of the Approaches in England and Wales

Teacher Training in Informatics: Analyzing The Problems

Foundations for Restructuring through Standards for Information Technology Teacher Preparation Programmes: National Policy Initiatives in the United States

Do Enthusiastic Users Inhibit Change?

Information Technology as a Tool for Addressing Inequities at the International Level

Shifting the Paradigm To Address Gender Issues in Computer Science Education
A Look Back on the Conference p. 295
Appendices: IFIP Technical Committee for Education TC3 p. 311
Appendices: IFIP Working Group on Secondary Education WG 3.1 p. 312
Appendices: IFIP Working Group on Elementary Education WG 3.5 p. 313
Keyword Index p. 315
