Preface

Opening address p. 1

Criteria, Evaluation and the International Environment: where have we been, where are we going? p. 5

The UK Department of Trade and Industry's Commercial Computer Centre p. 15

Commercial Security Evaluation p. 35

Security Assessment and Conformance Testing p. 43

A Generalized Testbed for Analysing Block and Stream Ciphers p. 55

Digital Signatures p. 67

Laying the Groundwork for a Model Information Security Program p. 77

Policy Route Certification: Requirements and Techniques p. 87

Audit Control in Databases p. 99

Knowledge Based Systems: Audit, Security and Validation Issues p. 111

Auditing Expert Systems p. 123

Building Secure Financial Applications p. 135

A Role-Based Modelling of Access Control with the Help of Frames p. 147

Finding Better Methods for Identity Verification by Signatures p. 159

A Proactive Password Checker p. 169

Personal Identification--Biometrics p. 181

Promoting a Healthy Scepticism with Regard to Information Processing p. 193

Running Corporate and National Security Awareness Programmes p. 203

Using Ada for Embedded Secure Systems p. 209

Reliable Processing of Confidential Information p. 221

Privacy-Enhanced Electronic Mail: From Architecture to Implementation p. 233

ISDN-MIXes: Untraceable Communication with Very Small Bandwidth Overhead p. 245

Creating Confidence through Consensus p. 259

Errors are the Real Problem p. 271

Security and Credibility and some Fundamental Flaws p. 275

Top Management Challenge--From Quantitative Guesses to Prudent Baseline of Security p. 287

Policing the PC--a "Neighbourhood Watch" Scheme p. 293

Comparing Risk Analysis Methodologies p. 301

A Multi-Level Secure TCP/IP p. 313

Adapting Applications to Multi-Level Secure UNIX Systems p. 325

An Architectural Approach to the Interface between Applications Programs and Security Sub-Systems p. 335

A New Formal Model for Controlling Security in Multi-Domained Computer Environments p. 347

Rationale for the GOSIP Security Architecture p. 351

EDI Security--Today and Tomorrow p. 361

Information Security Control--Authority and Accountability in Practice p. 375
