Foreword

Scientific Program Committee

Poster Session Committee

Presidential Address: Progress and development of fetal medicine p. 1
Opening Lecture: Future horizons in perinatal medicine p. 5

Special Lectures

Effective measures for the prevention of late abortions and premature births p. 15
Frontiers in perinatal medicine p. 21
Intrauterine fetal reanimation in acute intrapartum fetal distress p. 27
Reproductive health: a global overview p. 35
A 50-year overview of perinatal medicine p. 43

Plenary Lectures

Approaching the millennium: Perinatal problems and software solutions p. 51
Surfactant in the perinatal period p. 57
The placenta, PGE$_2$ and parturition p. 63
Non-kinetic hyperglycinemia: A life-threatening disorder in the neonate p. 75
Behavioral and neurochemical sequelae in young rats of antenatal hypoxia p. 83
Fetal biochemistry in growth retardation p. 91
Metabolic aspects of fetal and neonatal growth p. 99

Symposia

Training Programs of Perinatal Care

Care in early pregnancy p. 107
Training in perinatal care - management of patients in labour p. 111
Postgraduate education in ultrasound diagnosis in obstetrics and gynaecology in Sweden p. 117
The training of a neonatologist p. 121

Perinatal Immunology and Infections

Significance of chorioamnionitis p. 125
Perinatal viral infections p. 131
Immunotherapy in perinatal infection p. 137
Autoimmune thrombocytopenic purpura: Maternal and fetal disease p. 143

Prenatal Diagnosis of Genetic Disorders

Molecular biological approaches to genetic disorders in prenatal diagnosis p. 149
The role of fetal blood sampling in prenatal diagnosis p. 155

Physiology of Adaption to the Extrauterine Life

Effect of atrial natriuretic factor (ANF) on water homeostasis of the neonate p. 161
Perinatal adaptation of the cardiovascular system p. 167
Neurological maladaptation in the neonate p. 171

Evaluation of Fetal Growth and Development

The role of insulin in fetal growth p. 177
Fetal amino acids in normal pregnancies and in pregnancies complicated by intrauterine growth retardation p. 183
Feto-maternal interaction of IGF-I and its binding proteins in fetal growth p. 187
Intrauterine feeding of the growth retarded fetus: Can we help? p. 193
Perinatal computing design criteria for high tech support for clinical image services p. 199

Strategies for Providing Perinatal Health Care to Developing Countries
Perinatal care in China p. 203
Training program in Japan for health caretakers from developing countries p. 207
Primary health care and the perinatal period p. 211
AIDS
HIV in women p. 217
Clinical presentation of HIV/AIDS in the high risk neonate in Zambia p. 221
Problems of AIDS in India especially in women p. 225
Management of pregnancy of HIV infected woman p. 231
Fetal Therapy
Hydrops fetalis caused by severe [alpha]-thalassemia p. 233
Diagnosis and therapy in Rh-Incompatibility p. 237
Intrauterine treatment on non-immune hydrops fetalis p. 241
Update on Monitoring Fetal and Neonatal Hypoxia
Longitudinal measurements of fetal heart rate (FHR) monitoring in second trimester p. 251

The role of Doppler technology in the evaluation of fetal hypoxia p. 259
Fetal and neonatal cerebral oxygen monitoring with NIRS: Theory and practice p. 269
New Aspects of Neonatal Intensive Care
A prospective, randomized trial of early versus late administration of a single dose of surfactant-TA p. 275
Prenatal prevention of respiratory distress syndrome: new pharmacologic approaches p. 283

Patent ductus arteriosus: how important to which babies p. 287
Advances in mechanical ventilation: high frequency ventilation p. 293
The use of high-frequency oscillatory ventilation (HFOV) and extracorporeal membrane oxygenation (ECMO) in the management of the term/near term infant with respiratory failure p. 299
International Collaboration to Evaluate the Effects of Perinatal Practices
Rationale for and work of the Perinatal Trials Service p. 305
Evaluation of different policies for the management of labour p. 309
Multicentre collaboration in perinatal trials in Canada p. 313
Readiness of Japan to participate in international collaboration studies p. 317
Randomized clinical trials in perinatology in Latin America p. 323
Is Mother’s Milk the Most Suitable Food for Very Low Birth Weight Infants?
Do breast milk derived hormones play a role in neonatal development? p. 329
Trace elements and mineral requirements for very low birth weight infants in rickets of prematurity p. 333
Fortified preterm human milk for very low birth weight infants p. 339
Is mother’s milk the most suitable food for very low birth weight infants? p. 345
Composition of premature breast-milk during lactation: constant digestible protein content (as in full term milk)  p. 351

Antenatal Diagnosis and Neonatal Surgery

Antenatal diagnosis of fetal abnormality by ultrasonic real-time scanner  p. 357
Antenatally detected ovarian cysts - a therapeutic dilemma  p. 363
Esophageal atresia (T-E fistula): an index for neonatal surgery  p. 369
Prenatal diagnosis of congenital diaphragmatic hernia and perinatal care: assessment of lung hypoplasia  p. 375

Hi-tech in Perinatal Medicine

Transvaginal ultrasound in the first trimester of pregnancy  p. 381
Transvaginal color doppler assessment of uteroplacental circulation in normal and abnormal early pregnancy  p. 385
A study on the development of sleep-wakefulness cycle in the human fetus  p. 391

Ethics in Perinatal Medicine

Ethical considerations in safe motherhood (SM) programs in developing countries  p. 397
Ethical problems in neonatal intensive care unit - medical decision making on the neonate with poor prognosis  p. 403

Subject Index  p. 407

Author index  p. 413
