Conference Resolution
Summary of Discussion of Workshop 1
Summary of Discussion of Workshop 2
Summary of Discussion of Workshop 3
Keynote Address
Coastal marine eutrophication: principles and control

Adriatic Papers
The problems of the Emilia-Romagna coastal waters: facts and interpretations
Northern Adriatic Sea: Oceanography of the basin proper and of the western coastal zone
Eutrophication, structure and dynamics of a marine coastal system: results of a ten-year monitoring along the Emilia-Romagna coast
Toxic or potentially toxic dinoflagellates from the Northern Adriatic Sea
Multi-level nutrient enrichment bioassays on Northern Adriatic coastal waters
Past diatom blooms and benthic foraminifera extinction detected in old Adriatic sediments
The role of zooplankton in eutrophication, with special reference to the Northern Adriatic Sea
Analysis of meteorological parameters related to Adriatic eutrophication
Time series analysis of oceanological parameters measured at a fixed station
Eutrophication along the Emilia-Romagna coast: application of statistical analyses to 1984-89 monitoring data
An empirical dispersion model for total phosphorus in a coastal area: the Po River-Adriatic system
Statistical assessment of trophic conditions. Application of the OECD methodology to the marine environment
Interrelationships between phytoplankton biomass and nutrients in the eutrophicated areas of the North-Western Adriatic Sea
Benthic fluxes and nutrient budgets for sediments in the Northern Adriatic Sea: burial and recycling efficiencies
Breakwaters and eutrophication along the Emilia-Romagna coast
Nutrient export from the Po and Adige river basins over the last 20 years
Quantification of the phosphorus and nitrogen loads in the minor rivers of the Emilia-Romagna coast (Italy). A methodological study of the use of theoretical coefficients in calculating the loads
Transport of nutrients in rivers: investigations on the Po River (Italy)
Water quality and estimate of nutrient loading of the Reno River in different hydrological conditions
Contribution of agricultural land in the Po Valley to coastal eutrophication of the Adriatic Sea
Impact of nutrient enrichment and its relationship to the algal bloom in the Adriatic Sea
The effectiveness of wastewater treatment on the Emilia-Romagna coast. An analysis carried out by means of a three-dimensional hydrodynamical model

Direct and indirect domestic nutrient load evaluation by mathematical model: the Venice Lagoon case study

Daily monitoring of an Adriatic coastal stretch

Marine coastal eutrophication south of the River Po: monitoring within 300 m of the coast

A year of monitoring of marine eutrophication on the coast of Ancona

First cases of diarrhoetic shellfish poisoning in the Northern Adriatic Sea

Chrysaora hysoscella in the Gulf of Trieste: presence, evolution and cutaneous toxicity in man

Oxygen conditions in the Gulf of Trieste (High Adriatic)

Microfouling seasonality in a locality of the Gulf of Trieste (1986-1988)

Processes leading to dystrophy in a Po River Delta lagoon (Sacca di Goro): phytoplankton-macroalgae interaction

Eutrophy and dystrophy in the Goro lagoon (Italy)

Chemical composition and decomposition of Ulva rigida in a coastal lagoon (Sacca di Goro, Po River Delta)

Nutrient release from sediments and the role of bioturbation in the Goro Lagoon (Italy)

Physical intervention in the lagoon of Sacca di Goro. An examination using a 3-D numerical model

Mucilage Phenomena

Mucilage and the phenomena of algae in the history of the Adriatic: Periodization and the anthropic context (17th-20th cent.)

Floating mucilage in the Northern Adriatic Sea: the potential of a microbial ecological approach to solve the "mystery"

Marine snow in the Adriatic Sea: a multifactorial study

Microbial analyses of Adriatic Sea mucilages

Mucligenous aggregates in the Gulf of Trieste (Northern Adriatic Sea): analysis of the phytoplanktonic communities in the period June-August 1989

Mucligenous agglomerations in the Gulf of Trieste (North Adriatic Sea): Analysis of the microzooplankton populations in the period June-August 1989

The mucilage phenomenon in the Northern Adriatic Sea, summer 1989: a study carried out with remote sensing techniques

General Overviews

Effects of cultural eutrophication on coastal marine fisheries: a comparative approach

Sanitary consequences of eutrophication and related ecological disequilibria in the marine environment

Eutrophication, marine biotoxins, human health

Contributed Papers

Marine eutrophication in Europe: similarities and regional differences in appearance

Eutrophication in the Baltic Sea

Marine eutrophication syndrome in the North-Western part of the Black Sea

</table>
Benthic communities and bioturbation history of estuarine and coastal systems: effects of hypoxia and anoxia

Benthic communities: eutrophication's "memory mode"

Energy metabolism of bivalves at reduced oxygen tensions

Physiological and biochemical responses of the bivalve Scapharca inequivalvis to hypoxia and cadmium exposure: erythrocytes versus other tissues

Continuous monitoring of dissolved oxygen in an estuary experiencing periodic hypoxia and the effect of hypoxia on macrobenthos and fish

Flux of sediments and nutrients from low to deep water in a Danish Fjord

Significance of benthic regeneration in nutrient balance in the Bay of Cadiz, south-west Spain (a shallow semi-closed coastal ecosystem)

Mechanisms of phosphorus releases from the sediment-water interface in Xiamen Bay, Fujian, China

Distribution of oxidative-reductive parts and the estimation of biological activities in upper sediments of a tidal river

Management of urban, industrial and agricultural pollution to control coastal eutrophication

An integral approach to assess cause-effect relationships in eutrophication of marine systems

Nutrients in the North Sea September 1988 to October 1989: use of nutrient ratios and nutrient/salinity relationships to identify source and sinks of nutrients

Measures counteracting eutrophication of the Kattegat

Conventional methods applied in pollution control of the Romanian coastal waters of the Black Sea

Ecological conditions in the Orbetello Lagoon and suggested actions for its restoration

Experiences for management of Orbetello Lagoon: eutrophication and fishing

Recent improvements of water quality and biological indicators in Hillsborough Bay, a highly impacted subdivision of Tampa Bay, Florida, USA

Eutrophication and its remedies in the Seto Inland Sea with respect to the characteristics of bed deposition

Eutrophication control in the Seto Inland Sea

Water quality management and waterfront development along a eutrophic bay

Flow and particulate nutrient removal by wetland with emergent macrophytes

Eutrophication and urban renewal: problems and perspectives for the management of disused docks

A pre-precipitation process using low lime dosage as a feasible method for reducing phosphorus discharges
