Preface

Toward fuzzy logic

Introduction: Issues in the Management of Uncertainty

Models of enquiry and formalisms for approximate reasoning

A survey of uncertain and approximate inference

Valuation-based systems: A framework for managing uncertainty in expert systems

Rough sets: A new approach to vagueness

Aspects of Fuzzy Logic: Theory and Implementations

LT-fuzzy logics

A model theoretic approach to propositional fuzzy logic using Beth Tableaux

On fuzzy intuitionistic logic

A nonmonotonic fuzzy logic

On modifier logic

VLSI fuzzy chip and inference accelerator board systems

Fuzzy Logic for Approximate Reasoning

Fuzzy logic as a basis of approximate reasoning

Presumption, prejudice, and regularity in fuzzy material implication

A comparative study of the behavior of some popular fuzzy implication operators on the generalized modus ponens

A fast algorithm for fuzzy inference by compact rules

Positive and negative explanations of uncertain reasoning in the framework of possibility theory

Inconsistency in possibilistic knowledge bases: To live with it or not live with it

Inference for information systems containing probabilistic and fuzzy uncertainties

Approximate reasoning in a system combining prototypical knowledge with case-based reasoning

Fuzzy Logic for Knowledge Representation and Elicitation

Fuzzy logic and knowledge representation using linguistic modifiers

Use of fuzzy relations in knowledge representation, acquisition, and processing

Approximate reasoning in diagnosis, therapy, and prognosis

Elementary learning in a fuzzy expert system

Fuzzy logic with linguistic quantifiers in inductive learning

On fuzzy neuron models

Knowledge-Based Systems Using Fuzzy Logic

FLISP: Representing and processing of uncertain information

Structured local fuzzy logics in MILORD

Management of uncertainty in knowledge-based medical systems

The use of fuzzy logic for the management of uncertainty in intelligent hybrid systems

The validation of fuzzy knowledge-based systems

Fuzzy Logic for Intelligent Database Management Systems
A survey of conceptual and logical data models for uncertainty management p. 607
Fuzzy querying in conventional databases p. 645
Index p. 673
