Partial table of contents

Physiological Factors Influencing the Growth of Skeletal Muscle
Hormonal Control of Myosin Heavy Chain Genes During Development of Skeletal Muscles

Mechanisms of Interaction Between Motoneurons and Muscles
In Vitro Analysis of Specificity during Nerve--Muscle Synaptogenesis
Reorganization of Synaptic Inputs to Developing Skeletal Muscle Fibers
The Role of Muscle in the Development and Differentiation of Spinal Mq6 Neurons: In Vitro Studies
Comparison of Injury and Development in the Neuromuscular System
Responses of Diseased Muscle to Electrical and Mechanical Intervention
