The Principle of the Synthetical Unity of Apperception is the highest Principle of all exercise of the Understanding
What Objective Unity of Self-consciousness is
The Logical Form of all Judgments consists in the Objective Unity of Apperception of the Conceptions contained therein
All Sensuous Intuitions are subject to the Categories, as Conditions under which alone the manifold contents of them can be united in one Consciousness

Observation
In Cognition, its Application to Objects of Experience is the only legitimate use of the Category
