Preface and acknowledgements
Prologue p. 3
Paleopoles and paleomagnetic directions p. 9
Megaplates, microplates, blocks, terranes, accreted slivers, thrusts and olistostromes p. 25
Paleomagnetic information - what makes a paleopole valuable? p. 33
The major continents and Pangea p. 73
North America, Greenland and Europe p. 74
The Gondwana continents p. 84
Siberian realm p. 98
North and South China p. 102
Pangea configurations p. 106
The opening of the Atlantic Ocean p. 125
The late Middle to Late Jurassic (176-145 Ma) p. 127
The Early Cretaceous (144-98 Ma) p. 137
The Late Cretaceous (97-67 Ma) p. 140
The Early Tertiary (66-37 Ma) p. 140
The Tethys blocks p. 145
Western Mediterranean p. 151
Eastern Mediterranean p. 174
Iran, central Afghanistan and Oman p. 190
The Central Asian blocks and mobile belts p. 195
The Far Eastern blocks and mobile belts p. 210
The terranes, blocks and adjacent continents of the Iapetus Ocean p. 231
The major continents and the closure of Iapetus p. 233
Southern Great Britain p. 240
Armorica p. 243
Appalachian displaced terranes p. 249
The opening of Iapetus and possible break-up of a Late Proterozoic supercontinent p. 253
Epilogue p. 269
Appendix p. 275
References p. 351
Index p. 405
