Preface

Introduction

Phylogenetics of characters and groups, and the classification of taxa

Problems in understanding metatherian evolution

Form-function, and ecological and behavioural morphology in Metatheria

Background to the analysis of metatherian cruropedal evidence

Mesozoic and Cenozoic: fossil tarsals of ameridelphians unassociated with teeth

Cruropedal attributes of living and fossil families of metatherians

Taxa and phylogeny of Metatheria

Paleobiogeography and metatherian evolution
