Preface

Tectonic signatures in sedimentary basin fills: an overview p. 1

The interrelations of post-collision tectonism and sedimentation in Central Asia p. 13

Distribution of Plio-Pleistocene and Modern coarse-grained deltas south of the Gulf of Corinthis, Greece p. 37

Some controls on sedimentary sequences in foreland basins: examples from the Alberta Basin p. 49

Stratigraphy and sedimentary development of the Sant Llorenc del Munt fan-delta complex (Eocene, southern Pyrenean foreland basin, northeast Spain) p. 67

Evidence for Late Holocene relative sea-level fall from reconnaissance stratigraphical studies in an area of earthquake-subsided intertidal deposits, Isla Chiloe, southern Chile p. 91

Sedimentation in divergent plate-margin basins p. 111

Sea-level changes and extensional tectonics in the Lower Jurassic (northern Helvetic realm, western Switzerland) p. 129

The Tertiary Queen Charlotte Basin: a strike-slip basin on the western Canadian continental margin p. 161

Middle Devonian to Dinantian sedimentation in the Campine Basin (northern Belgium): its relation to Variscan tectonism p. 171

A basin reappraisal of the Proterozoic Torridon Group, northwest Scotland p. 183

Stratigraphical evolution of a Proterozoic syn-rift to post-rift basin: constraints on the nature of lithospheric extension in the Mount Isa Inlier, Australia p. 203

Controls on sedimentation at convergent plate-margins p. 225

Thrust-generated, back-fill stacking of alluvial fan sequences, south-central Pyrenees, Spain (La Pobla de Segur Conglomerates) p. 259

Evolution of a Pliocene fan-delta: links between the Sorbas and Carboneras Basins, southeast Spain p. 277

Tectonic generation of lowstand turbidite units in a foreland basin, Marchean Apennines, Italy p. 291

Tectonic controls on non-marine sedimentation in a Cretaceous fore-arc basin, Baja California, Mexico p. 301

Basin-fill patterns controlled by tectonics and climate: the Neogene ‘fore-arc’ basins of eastern Crete as a case history p. 335

Ancient and modern examples of tectonic escape basins: the Archaean Witwatersrand Basin compared with the Cenozoic Maracaibo Basin p. 363

Tectonically induced clastic sediment diversion and the origin of thick, widespread coal beds (Appalachian and Williston basins, USA) p. 377

Plio-Pleistocene outer arc basins in southern Central America (Osa Peninsula, Costa Rica) p. 399

Mesozoic-Tertiary sedimentary and tectonic evolution of Neotethyan carbonate platforms, margins and small ocean basins in the Antalya Complex of southwest Turkey p. 415

Growth of a sloperidge and its control on sedimentation: Paola slope basin (eastern Tyrrhenian margin) p. 467

Sedimentation and tectonics of the Khomas Hochland accretionary prism, along a Late Proterozoic continental margin, Damara Sequence, central Namibia p. 481

Index p. 499
