Preface
Contributors
Basic Principles
Male Reproductive Toxicology p. 3
Female Reproductive Toxicology p. 18
Comparative Approach to Toxicokinetics p. 25
Developmental Toxicology: Prenatal Period p. 37
Developmental Toxicology: Male-Mediated Effects p. 52
Lactation p. 60
Carcinogenesis p. 76
Research Methods
Reproductive and Developmental Toxicity Testing Methods in Animals p. 91
Epidemiology p. 100
Clinical Assessment and Management
Clinical Evaluation and Management p. 113
Common Clinical Encounters p. 137
Legal and Policy Issues p. 150
Specific Toxicants
Physical Agents
Ionizing and Nonionizing Radiations p. 165
Video Display Terminals p. 190
Ergonomics p. 201
Atmospheric Variations, Noise, and Vibration p. 218
Chemicals
Metals p. 233
Asphyxiants p. 253
Organic Solvents p. 267
Occupational Exposure to Pharmaceuticals: Antineoplastics, Anesthetic Agents, Sex Steroid Hormones p. 280
Pesticides p. 296
Polyhalogenated Biphenyls p. 310
Biological Agents
Viral Infections p. 319
Human Immunodeficiency Virus (HIV) and the Workplace p. 334
Home and Community Exposures
Chemical Dependency p. 344
Common Household Exposures p. 361
Community Exposure to Toxic Substances p. 379
Appendix: Required and Recommended Exposure Limits for Some Chemicals Known or Suspected to be Reproductive/Developmental Hazards p. 393
Index p. 407
