Preface
On the Parallel Characteristics of Engineering/Scientific and Commercial Applications p. 1
Parallel Processing in a Commercial Open Systems Market p. 31
Parallel Perspectives on Management Information p. 39
Parallel Processing for Database Applications: the Forthcoming Revolution p. 47
Optimizing Parallel Processing in the Commercial Relational Environment p. 65
The EDS Commercial Parallel Processing System p. 81
IDIOMS: A Database Machine with Distributed Processor Architecture p. 103
Parallel Architectures for Smart Processing Systems p. 115
The PVM Concurrent Computing System p. 133
Configuration Tools for a Parallel Processing System p. 151
Customizable Resource Management for Parallel Database System p. 167
Performance Evaluation of Large Parallel Database Machines: Techniques and Tools p. 185
Real Commercial Applications on Parallel Database Systems p. 203
Recursive Query Processing on a Connection Machine p. 211
Processing Databases of Chemical and Biological Structures on the Distributed Array Processor p. 239
Exploitation of Parallelism in Commercial Systems p. 255
