Preface to the first edition
Preface to the third edition
Laboratory-acquired infections p. 1
How laboratory infections are acquired p. 28
Classification of microorganisms on the basis of hazard and laboratories on the basis of use p. 41
Minimizing equipment and technique-related hazards p. 50
Microbiological safety cabinets p. 88
Collection, transport and receipt of infectious materials p. 121
Decontamination p. 135
The laboratory worker p. 163
Instruction in microbiological safety p. 175
The safe working environment p. 184
Risk assessment, safety supervision and emergency contingency plans p. 202
Precautions against laboratory-acquired hepatitis and AIDS p. 205
Precautions against laboratory-acquired typhoid fever and tuberculosis p. 214
Precautions with unconventional agents p. 218
Precautions with parasites in Hazard Group 3 p. 219
Precautions for work with mammalian cell or tissue cultures p. 221
Precautions against infections in the post-mortem room p. 223
Appendix 1: Legal obligations applicable to microbiology in the UK p. 226
Appendix 2: Safety in biotechnology p. 228
Appendix 3: Hazard warning notices and 'safety' labels p. 229
References p. 230
Index p. 265
