Contributors
Preface
Basic Concepts of Rigid Fixation p. 1
Bone Healing p. 3
Principles of Compression Osteosynthesis p. 7
Principles of Monocortical Miniplate Osteosynthesis p. 15
Principles and Technique of Lag Screw Osteosynthesis p. 22
Implant Materials in Rigid Fixation: Physical, Mechanical, Corrosion, and Biocompatibility Considerations p. 28
The Potential of Resorbable Biomaterials for Skeletal Fixation p. 57
The Effects of Mandibular Immobilization on the Masticatory System: A Review p. 63
Implant Systems for Rigid Fixation of the Craniomaxillofacial Skeleton p. 77
Specifications, Indications, and Clinical Applications of the Luhr Vitallium Maxillofacial Systems
Champy's System p. 116
The AO/ASIF Maxillofacial Implant System p. 124
The Wurzburg Titanium System for Rigid Fixation of the Craniomaxillofacial Skeleton p. 134
The ITI Dental Implant System [actual symbol not reproducible][Bonefit][actual symbols not reproducible] p. 152
Osteointegration and Rigid Fixation p. 163
Clinical Applications
Trauma p. 177
Rigid Internal Fixation of Mandibular Fractures p. 179
Lag Screws in Mandibular Fractures p. 187
Rigid Fixation of Complex Mandibular Fractures p. 195
Open Reduction and Rigid Fixation of Subcondylar Fractures p. 209
Complications of Rigid Internal Fixation of the Mandible p. 217
Management of Infected Fractures and Nonunions of the Mandible p. 233
Rigid Fixation of Le Fort Maxillary Fractures p. 245
Rigid Fixation of Zygomatic Fractures p. 263
Rigid Fixation of Nasoethmoid-orbital Fractures p. 283
Rigid Fixation of Orbital Fractures p. 302
Reconstruction of the Internal Orbit Using Rigid Fixation Techniques p. 317
Rigid Fixation of Frontal Bone Fractures p. 323
Rigid Fixation of Panfacial Injuries p. 330
Rigid Fixation of Complex Gunshot Wounds p. 338
Complications in the Rigid Fixation of Midface Fractures p. 351
Craniofacial Osteotomies and Rigid Fixation in the Correction of Post-Traumatic Craniofacial Deformities p. 357
The Use of Rigid Fixation in Secondary Post-Traumatic Cranio-Orbital Reconstruction p. 371
The Use of Rigid Fixation in Post-Traumatic Maxillary and Mandibular Reconstruction p. 379
