POWER: Program for an Ontology Based Working Environment for Modeling and Use of Regulations and Legislation  p. 327
Design Issues for Individual Online Public Services  p. 335
Design Issues I
SGML for E-Governance: The Case of the Finnish Parliament  p. 349
Designing Service-Centered Web Sites for Public Administrations  p. 354
Development of Secure Internet Applications for Governmental Environments  p. 362
Examining the Role of Governments I
Vision, Roles and Steps for Governments in Transition to the Digital Age  p. 369
Examining the Role of Governments II
Organizational Challenges to the Development of Electronic Government  p. 379
E-Councils--Systems, Experiences, Perspectives  p. 384
Design Issues II
Technological Support for E-Democracy: History and Perspectives  p. 391
International Workshop on Agent-Based Information Systems: ABIS 2000
Mobile Agents
QoS Management by Mobile Agents in Multimedia Communication  p. 407
Security Issues in Mobile eCommerce  p. 412
Security Design of Mobile Agent System  p. 426
Negotiation and Collaboration
Towards a Generic Negotiation Model for Intentional Agents  p. 433
An Agent-Based Negotiation Model Supporting Transactions in Electronic Commerce  p. 440
An Adaptable Human-Agent Collaboration Information System in Manufacturing (HACISM)  p. 445
Systems and Applications
Paradigma: Agent Implementation through Jini  p. 453
Guardian Agents to Support Student Group Projects  p. 458
An Experimental Infrastructure for the Sharing of Knowledge on the Internet: The iOn Project  p. 463
Agents and Databases
Agent Managed Multi Database System Design for the Stock Broking Domain  p. 471
Mobile Database Agents for Building Data Warehouses  p. 477
Financial Advisor Agent in a Multi-Agent Financial Trading System  p. 482
Information Self-Organization for Knowledge Discovery  p. 489
Performance Modeling and Metrics of Database-Backed Web Sites  p. 494
One World under a Groove--Handling Internet Mapping as Music  p. 499
Adaptive Automatic Classification on the Web  p. 504
Using Section–Semantic Relation Structures to Enhance the Performance of Web Search p. 512

Chair: Mounia Lalmas, Queen Mary and Westfield College, United Kingdom
A Semantical Twist to Syntactical Navigation p. 523
Chair: Iadh Ounis, University of Glasgow, Scotland
Retrieval Situations and Belief Change p. 531
Decision Support under Imperfections in Electronic Commerce p. 538
Building Bayesian Network-Based Information Retrieval Systems p. 543
Chair: Peter Bruza, University of Queensland, Australia
Resolution Spaces: A Topological Approach to Similarity p. 553
The Organization and Visualization of Document Corpora: A Probabilistic Approach p. 558
Risk Constraints in Agent Conflicts p. 565
Second International Workshop on Web-Based Information Visualization: WebVis 2000

Visualization of Spatio-Temporal Information in the Internet p. 577
Evaluation of Different Visualizations of Web Search Results p. 586
Domain Name Based Visualization of Web Histories in a Zoomable User Interface p. 591

The Aquarium: A Novel User Interface Metaphor for Large, Online Stores p. 601
A Visual Technique to Indicate Overall and Component Relevancy of Search-Engine Results p. 608

"Andreas Rauber"? Conference Pages Are over There, German Documents on the Lower Left... An "Old-Fashioned" Approach to Web Search Results Visualization

Image Retrieval System for Web: Webscope-CBIR p. 620
Third International Workshop on Parallel and Distributed Databases: Innovative Applications and New Architectures: PaDD 2000

Invited Address: An Overview of Parallel Query Optimization in Relational Systems p. 629
PPS--A Parallel Partition Sort Algorithm for Multiprocessor Database Systems p. 635

Query Scrambling in Distributed Multidatabase Systems p. 647
A Semantic Framework for the Design of Data Distribution Schemes p. 653
Optimizing the parSOM Neural Network Implementation for Data Mining with Distributed Memory Systems and Cluster Computing p. 661

A Comparative Study of Selected Parallel Video Servers p. 669
CORBA, Web and Databases p. 674
International Workshop on Interacting with Databases: IDA 2000
Visualizing Multidimensional Raster Data with rView
A General Purpose Architecture for Image Retrieval in Databases
A Metadata-Based Approach to Define a Standard to Visual Queries in GIS
Interacting with Spatiotemporal Digital Libraries
Integrating a Query Language for Structured and Semi-Structured Data and IR Techniques
Towards an Interactive Query Environment for a Multi-Attribute Decision Model with Imprecise Data and Vague Query Conditions
First International Workshop on Web-Agent Systems and Applications: WASA 2000
Agent Systems
An Agent Server for the Next Generation of Web Applications
TRACE--An Adaptive Organizational Policy for MAS
Mobile Agent-Based Distributed Geographic Information Systems under Internet Environment
A Multi-Agent System Architecture for Information Gathering
Agent Information Retrieval
Technical Perspective on the Heterogeneous Databases Interoperability
The Design and Application of Agent on Pattern Cooperative Design Environment
Discovering Sequence Association Rules with User Access Transaction Grammars
Agent Technologies
A Taxonomy of Web Agents
Services on the Net: An Agent Based Approach
Agent-Oriented Concepts to Foster the Automation of E-Business
A Componentware for Distributed Agent Collaboration
International Workshop on Enterprise and Domain Engineering: DomE 2000
Invited Address
An Experience of Engineering Enterprise Data and Process Knowledge
Combining and Adapting Process Patterns for Flexible Workflow
Analogical Reuse of Structural and Behavioral Aspects of Event-Based Object-Oriented Domain Models
A Business Object Oriented Layered Enterprise Architecture
Exploiting Enterprise Knowledge through Domain Analysis and Frameworks: An Experimental Work
A Framework of Patterns for the Banking Sector
Domain Knowledge Evolution in Business and I.T. System Change
Goal-Based Conflict Management in Scenario Analysis
Using Ontologies for Domain Information Retrieval
Knowledge Focused Bid Price Setting Process
International Workshop on Advanced Spatial Data Management: ASDM 2000
Spatio-Temporal Databases: Contentions, Components and Consolidation
The SBS: An Efficient Index Structure for Spatial Database Applications p. 856
Decomposing Spatial Databases and Applications p. 861
Interacting with Geographic Databases: A Focus + Context Approach p. 869
Consistent Queries over Cardinal Directions across Different Levels of Detail p. 876
Efficient Index Structures for Spatio-Temporal Objects p. 881
A Parallel Spatial Join Framework Using PMR-Quadtrees p. 889
Managing Large Terrain Data Sets with a Multiresolution Structure p. 894
Temporal Reasoning in Geographical Information Systems p. 899
Summarizing Video Datasets in the Spatiotemporal Domain p. 906
On 3D Topological Relationships p. 913
Fourth International Workshop on Query Processing and Multimedia Issues in Distributed Systems: QPMIDS 2000
Query Processing and Multimedia Issues for Distributed Systems
Mobile Agent Applications in a Distributive Interactive Virtual Environment: The Happy Paradise (HAPA) p. 925
A Sound Algorithm for Region-Based Image Retrieval Using an Index p. 930
Copyright Protection of Cultural Heritage Multimedia Data through Digital Watermarking Techniques p. 935
Description and Retrieval across Multiple Media Formats p. 940
Collaboration in Requirements Engineering
Combining Strategy and Deliberation in the Requirements Engineering Process p. 949
Collaborative Requirements Negotiation with EasyWinWin p. 954
Managing Requirements Evolution
Requirements Lifecycle Management and Release Planning in Market-Driven Requirements Engineering Processes p. 961
A Requirements Engineering Process Model Based on Defaults and Revisions p. 966
Engineering the REP
A Flexible Requirements Process p. 973
The Utility of Participative Enterprise Modeling in Information Systems: Development--Challenges and Research Issues p. 978
Analyzing Requirements Engineering Processes: A Case Study p. 983
Using Scenarios in Requirements Engineering
Scenario-Driven Search Finds More Exceptions p. 991
Fitting Scenarios to the Requirements Process p. 995
Workshop on Negotiations in Electronic Markets - Beyond Price Discovery--E-Negotiations
A Classification Framework of Multidimensional, Multi-Unit Procurement Negotiations p. 1003
An Internet-Based Procedure for Reverse Auctions Combining Aspects of Negotiations and Auctions p. 1010
A Conceptual Architecture for a Combined Negotiation Support System p. 1015
A Framework for Electronic Negotiations Based on Adjusted-Winner Mediation p. 1020
