Uncertain, Dynamic, Out of Control? Coordination and Cooperation in Next Generation Systems p. 165

Keynote Address 3

The Modest Software Engineer p. 169

Verification and Testing

TTCN-3 Based Online Test and Validation Platform for Internet Services p. 177
Software Testing for Mobile and Ubiquitous Computing p. 185
A Rigorous Approach to Modeling Autonomous Traffic Control Systems p. 193

Special Session Research and Development of Autonomous Decentralized Systems in East Asia I

A Train Control System for Low-Density Lines Based on Intelligent Autonomous Decentralized System (IADS) p. 203
Autonomous Coordination in Sensor Networks: Heterogeneous ADS p. 208
Study on Essential Characteristics of RITS p. 216

Information Dissemination

Autonomous Integration and Provision of Heterogeneous Information Services in Distributed Information System p. 225
I-Centric Services Based on Super Distributed Objects p. 232
An Approach to Developing Information Dissemination Service for Ubiquitous Computing Applications p. 240

Special Session Research and Development of Autonomous Decentralized Systems in East Asia II

Flexible Autonomous Decentralized Technology for Heterogeneous Requirements from Reusable Launch Vehicle p. 251
Assurance Technology for Coexisting Test and Operation Subsystems and Its Application to Train Control System p. 259
Autonomous Successive Construction Technology without Stopping System Operation for Real-Time System p. 266

Networks

Implementation and Evaluation of Autonomous Decentralized System Based Mobile Communications Platform for ITS Services p. 277
A Distributed Network Connectivity Algorithm p. 285
An Adaptive Multihop Clustering Scheme for Highly Mobile Ad Hoc Networks p. 293

Architecture 2

Patia: Adaptive Distributed Webserver (A Position Paper) p. 303
Stability and Adaptability of Autonomous Decentralized Flow Control in High-Speed Networks p. 311
An Experience on CORBA Component Deployment p. 319

Panel Session: The Future of Autonomous Decentralized Systems

The Future of Autonomous Decentralized Systems p. 329

Autonomy and Community p. 330

Supporting Future ADS Applications in Ubiquitous Computing Environments Using Adaptive, Context-Sensitive Middleware p. 331

Author Index p. 335
