Preface p. xvi
Organizing Committee p. xviii
Program Committee p. xix
Reviewers p. xxi

28 March
Tutorials A
Security Aspects of e-Governance
Web Services Design Patterns for Dynamic e-Business
Tutorials P
Semantic Web Services and Web Services Standards
Developing Enterprise Web Services and Applications

29 March
Keynote
eBusiness@Work: Lessons Learned and Future Trends
Web Services
A Redundant Nested Invocation Suppression Mechanism for Active Replication Fault-Tolerant Web Service
The Design of QoS Broker Algorithms for QoS-Capable Web Services Recovery in Web Service Applications
A Conceptual Analysis of the Role of Conversations in Web Services Composition Performance Engineering of a Java-Based eCommerce System
A Case Study in Developing Web Services for Capital Markets Model-Driven Web Services Development

eCommerce Applications
Application of eBusiness Strategies for SMEs in Developing Countries Simulation Models and Their Metainfo-Management Using RDF-Based Paradigms
The Assessment of E-Commerce Awareness on Highly Valuable Traditional Products in Thailand Web Surveys for Electronic Commerce: A Review of the Literature
Security & Trust (1)
Spreading Activation Models for Trust Propagation
A Two-Layer Cryptographic Scheme for an e-Service Framework Based on Mobile Agents

EC Technologies (1)
Understand User Preference of Online Shoppers A Multiple-Stage Cooperative Negotiation
A New Fair Micropayment System Based on Hash Chain

Intelligence
e-CLV: A Modeling Approach for Customer Lifetime Evaluation in e-Commerce Domains, p. 149
with an Application and Case Study for Online Auctions
Quantitative Approach to Using E-Commerce Data to Monitor and Control the Performance of a Supply Chain
Suppressing False Alarms of Intrusion Detection Using Improved Text Categorization Method
Business Services
e-Service as a New Paradigm for Developing Interactive Multidimensional City Modeling
Three-Tier Multi-Agent Architecture for Asset Management Consultant
A Web Services-Based Collaborative Scheme for Credit Card Fraud Detection
Development of a Remote Quick Design System for Woven Fabrics
Panel
Can Semantic Interoperability or Context-Awareness Be Realizable in Web Service and Mobile Commerce?
30 March
Keynote
e-Supply Chain Management Research: Challenges and Opportunities
Intelligence & Agents
Algorithms for Community Subject Identification: Experiments and Test Results
Portfolio Management Using Hybrid Recommendation System
An Efficient Approach for the Maintenance of Path Traversal Patterns
Single-Pass Algorithms for Mining Frequency Change Patterns with Limited Space in Evolving Append-Only and Dynamic Transaction Data Streams
Understanding the Behavioral Intention to Digital Piracy in Virtual Communities--A Propose Model
Mining Traveling and Purchasing Behaviors of Customers in Electronic Commerce Environment
Mobile Services
Indexing Continual Range Queries for Location-Aware Mobile Services
Security Specification and Implementation for Mobile e-Health Services
Mobile Target Advertising by Combining Self-Organization Map and Decision Tree
XML Schema-Based Discovery and Invocation of Mobile Services
A Personalized Restaurant Recommender Agent for Mobile E-Service
Personalizing Information Services on Wired and Wireless Networks
A Mobile Ticket Validation by VSS Tech with Time-Stamp
Utilising Push and Pull Mechanism in Wireless E-Health Environment
Internet Technologies (1)
An Analysis of Detailed Electronic Time-Stamping Using Digital TV
A Methodology to Find Web Site Keywords
The Challenge of Exclusions in Pervasive Cyberspace
QueryFind: Search Ranking Based on Users’ Feedback and Expert’s Agreement
A Personalized Courseware Recommendation System Based on Fuzzy Item Response Theory
An Object-Oriented Approach on Web Information Representation and Derivation p. 309
EC Technologies (2)
Increasing the Customer's Choice: Query Expansion Based on the Layer-Seeds Method and Its Application in E-Commerce p. 317
Multifunctional ICMP Messages for e-Commerce p. 325
A Study on Contents Distribution Using Electronic Cash System p. 333
An ASEP (Advanced Secure Electronic Payment) Protocol Design Using 3BC and ECC (F\(^{2}\)) Algorithm p. 341
Business Process
Value-Based Design of Collaboration Processes for e-Commerce p. 349
Matchmaking for Business Processes Based on Choreographies p. 359
Economic Analysis of Consumer Purchase Intentions in Electronic and Traditional Retail Channels: Competitive and Strategic Implications p. 369
Robustness of Entrusted Data-Analysis in e-Science Research Collaboration p. 373
Panel
How to Pursue e-Governments Strategically and Technically?
Keynote
Creating a Balanced and Diverse Economy in Taiwan with Knowledge Based Service Industry
31 March
Keynote
Key e-Business Opportunities for the Semiconductor Industry
EC Technologies (3)
A Privacy-Friendly Loyalty System for Electronic Marketplaces p. 385
An Efficient, Secure and Delegable Micro-Payment System p. 394
On Using Query Neighbourhood for Better Navigation through a Product Catalog: SMART Approach p. 405
Personalized Product Recommendation in e-Commerce p. 413
Knowledge Oriented Negotiation for Agent-Based B2B Electronic Commerce p. 421
A Decision Support System for Multiple Objective Linear Programming with Fuzzy Parameters p. 425
P2P/Grid
Music Piracy on Peer-to-Peer Networks p. 431
Decision Tree Construction for Data Mining on Grid Computing p. 441
Design and Implementation of a Computational Grid for Bioinformatics p. 448
Building an E-learning Platform by Access Grid and Data Grid Technologies p. 452
Mobile Technologies
A Scheme for MAC Isolation to Realize Effective Management in Public Wireless LAN p. 459
An Enhanced EDCG Replica Allocation Method in Ad Hoc Networks p. 465
A Self-Adapting Mobile Ipv6 Model Based on MAP p. 473
Internet Technologies (2)
Optimal Placement of Web Proxies for Tree Networks p. 479
Distributed Plug-and-Play Network Management Model Based on Mobile Agents p. 487
A Table Presentation System for Database and Web Applications p. 492
Data Extraction and Annotation for Dynamic Web Pages p. 499
Using Element and Document Profile for Information Clustering p. 503
Internet Technologies (3)
e-Transformation Technologies: Case Studies and the Road Ahead--A Value Chain Perspective p. 509
MPEG-7 Based Dozen Dimensional Digital Content Architecture for Semantic Image Retrieval Services p. 517
An Encoding Scheme for Indexing XML Data p. 525
Structure-Based Analysis of Web Sites p. 529
Secure Online Examination Architecture Based on Distributed Firewall p. 533
On the Distributed Management of SCORM-Compliant Course Contents p. 537
Internet Technologies (2)
Optimal Placement of Web Proxies for Tree Networks p. 479
Distributed Plug-and-Play Network Management Model Based on Mobile Agents p. 487
A Table Presentation System for Database and Web Applications p. 492
Data Extraction and Annotation for Dynamic Web Pages p. 499
Using Element and Document Profile for Information Clustering p. 503
Internet Technologies (3)
e-Transformation Technologies: Case Studies and the Road Ahead--A Value Chain Perspective p. 509
MPEG-7 Based Dozen Dimensional Digital Content Architecture for Semantic Image Retrieval Services p. 517
An Encoding Scheme for Indexing XML Data p. 525
Structure-Based Analysis of Web Sites p. 529
Secure Online Examination Architecture Based on Distributed Firewall p. 533
