Chairs’ Messages p. x
Organizers p. xi

Keynote Addresses
Science and Technology Challenges toward Business on Demand p. 2
Attacks and Countermeasures in System Security p. 3
E-Government in China: Current Status, Strategies, and Practice p. 4
Service Oriented Technology
A System Dynamics Framework for Sense-and-Respond Systems p. 6
Towards Architecture Model Based Deployment for Dynamic Grid Services p. 14
Efficient Interval Indexing for Content-Based Subscription E-Commerce and E-Service
Business Process and Modeling
A Semantic Publish/Subscribe System p. 32
EAML—Architecture Modeling Language for Enterprise Applications p. 40
Adaptive Fuzzy Approach to Estimate Supplier’s Competitiveness in Open E-Bidding p. 48
E-Commerce Experiences
The Business Model and Risk Control of Warehouse Financing in China p. 58
Measuring Globalization of ICT Industries: Empirical Evidence across Six Economies of East Asia and over Time p. 66
Mining Web Transaction Patterns in Electronic Commerce Environment p. 74
Trust Issues for Services
An Approach to Help Select Trustworthy Web Services p. 84
Visibility and Measurability for Trust Management in Cooperative Business Operations p. 92
An Extended RBAC Model for Web Services in Business Process p. 100
E-Commerce Lessons
China-Styled Certain Industry Circle Integration with Manufacturing Grid p. 110
A Study of the Self-Organization Modeling of Distributed Manufacturing Network p. 114
Articulating Autonomously Distributed Electronic Product Catalogues for Constructing Dynamic CONEX Net p. 118
Support System of Advertising Distribution Contract for Media-Mix Strategy p. 122
A New Idea of E-Learning: Establishing Video Library in University Network League p. 126
Business Models and Solution Architectures for SMB Financing in a Supply Chain Ecosystem p. 130
Web-Based Technology
The Design and Implementation of a Directory Based Wireless Network Operation Management System p. 136
Applying Personalized Annotation Mechanism to E-Documentation p. 142
A Delay Based Backoff Scheme to Support M-Commerce over Wireless Local Area Network p. 146
A New Architecture for Dynamic E-Business Database Interoperability p. 150
Dynamic Web Service Invocation Based on UDDI p. 154
Client-Side Deep Web Data Extraction p. 158
Supply Chain Issues
An Approach to Security and Privacy of RFID System for Supply Chain p. 164
Using Temporal Logics for Modeling and Analysis of Workflows p. 169
The Simulation of Service Supply Chain Formation Based on Mobile Agent's Searching p. 175

Formal Models and Verification
Towards Formal Verification of UML Diagrams Based on Graph Transformation p. 180
XML Constraints Preservation in Relational Schema p. 188
An Approach to XML-Based Knowledge Representation and Its Application in Dynamic E-Business p. 196

Security Issues
A Micro-Payment Scheme for Multiple-Vendor in M-Commerce p. 202
The HMM-Based Model for Evaluating Recommender's Reputation p. 209
Zero-Knowledge Proofs of Identity Based on ELGAMAL on Conic p. 216

Web Service Integration
Quality Evaluation of Web Services p. 226
Composing Web Services Dynamically and Semantically p. 234
SLA Representation and Applications in the NGI Service Management p. 242

Security Issues II
Work-Flow Based Multi-Domain Certificate in E-Commerce p. 248
Design of Single Sign-on p. 253
A Proxy Signature Scheme with Proxy Signer's Privacy Anonymity p. 257
An Improved Mutual Authentication Scheme for Smart Card Secure Messaging p. 261

Semantic Web and Services
Resource Association Discovery in Semantic Web p. 266
An Ontology Modeling Method in Semantic Composition of Web Services p. 270
Heterogeneity Resolution Based on Ontology in Web Services Composition p. 274
Knowledge Sharing and Web-Based Knowledge-Sharing Platform p. 278
A New Method in Multi-Issue Negotiation p. 282

Invited Tracks
Peer to Peer Computing
Maze: A Social Peer-to-Peer Network p. 290
Granary: Architecture of Object Oriented Internet Storage Service p. 294
A New Layered P2P Architecture with Efficient Resource Location Strategy p. 298
Trust Based Incentive in P2P Network p. 302
An Interest Group Model for Content Location in Peer-to-Peer Systems p. 306
P2P Research and Reality: Some Preliminary Thoughts p. 310
Efficient Peer-to-Peer Overlay Construction p. 314
PeerView: Query Processing Based on Views over Collaborative Peers p. 318
Business Transformation Solution
The Rise of the Model-Driven Enterprise p. 324
Realizing Business Components, Business Operations and Business Services p. 328
Business Process Simulation with IT Depth p. 333
A Sense-and-Respond Approach to Business Transformation p. 337
Real-Time Business Process Performance Management p. 341
Pricing Strategies for Information Products: A Review p. 345
Business Design for an on Demand Business Enterprise p. 349
Demand Flow Network p. 353
Intellectual Property Protection in Networking Environments
On Public and Private Rights in Digital Copyrights--A Legislative Perspective p. 358
Intellectual Property Protection for E-Business Methods p. 362
Policies and Practice of E-Government Construction in China p. 366
The Value of a University-Based Content Provider: A Case Study of SunnyNet p. 370
Grid Computing
Web Services Security in Data Service Delivery Platform in Telecom p. 374
ShanghaiGrid: Services to the People p. 378
An Efficient Web Services Based Approach to Computing Grid p. 382
Author Index p. 386
