Conference Committee

The Optimal Control of a Flexible Hull Robotic Undersea Vehicle Propelled by an Oscillating Foil p. 1

Autonomous Underwater Vehicle AQUA EXPLORER 1000 for Inspection of Underwater Cables

Design of a Small, Cheap UUV for Under-Ship Inspection and Salvage p. 18

Autonomous Operation of the Explosive Ordnance Disposal Robotic Work Package Using the CETUS Untethered Underwater Vehicle

Miniaturized and Reconfigurable Instrumentation for Multipurpose Survey with a Mini Autonomous Underwater Vehicle MAUVE - Project (*) p. 28

Exploration of Mono Lake with an ROV: A Prototype Experiment for the Maps AUV Program p. 33

Autonomous Legged Underwater Vehicles for Near Land Warfare p. 41

Pectoral Fin Model for Maneuver of Underwater Vehicles p. 49

Control Surface and Actuator Design for a Low Drag, Laminar Flow AUV p. 57

Local Area Navigation Using Sonar Feature Extraction and Model Based Predictive Control p. 67

Non-Linear Controller with Switched Control Law for Tracking Control of Non-Cruising AUV p. 78

Gradient Search with Autonomous Underwater Vehicles Using Scalar Measurements p. 86

NPS Phoenix AUV Software Integration and In-Water Testing p. 99

A Survey and Experimental Study of Neural AUV Control p. 109

Performance Results of a Fuzzy Behavioral Altitude Flight Controller and Rendezvous and Docking of an Autonomous Underwater Vehicle with Fuzzy Control p. 117

Strategic Level Mission Control - An Evaluation of CORAL and PROLOG Implementations for Mission Control Specifications p. 125

Exploratory Development Minehunting Sensors for Unmanned Vehicles p. 135

Sensors for a Forward-Looking High Resolution AUV Sonar p. 141

 Electronically Steered and Focused Forward-Looking Scan Sonar p. 146

A Side Scan Sonar System for Autonomous Underwater Vehicles p. 154

Multi-Frequency Shift Key and Differential Phase Shift Key for Acoustic Modem p. 160

Multi-Sensor Data Fusion for Seafloor Mapping and Ordnance Location p. 167

Significance for Envelope Detection in Underwater Acoustic Imaging Systems p. 179

High Resolution Array Signal Processing for AUV's p. 185

Subspace Stability in High Resolution Direction Finding and Signal Enumeration p. 192

Development and Validation of the Texas AandM University Autonomous Underwater Vehicle Controller p. 203

A Pragmatic Software Architecture for UUV's p. 209

Conditional Sequencing for Land, Space and Sea p. 216

A General Control Architecture for Multiple AUV's p. 223

Architecture of the Texas AandM Autonomous Underwater Vehicle Controller p. 231

Architecture for an Autonomous Reconfigurable Intelligent Control System (ARICS) p. 238
