

Preface	p. v
Contributors	p. vii
The History of Diabetes	p. 1
Basic Mechanisms of Islet Development and Function	p. 19
Development of the Endocrine Pancreas	p. 21
Islets of Langerhans: Morphology and Postnatal Growth	p. 41
Genetic Regulation of Islet Function	p. 53
Insulin Biosynthesis, Processing, and Chemistry	p. 65
Cell Biology of Insulin Secretion	p. 83
Insulin Secretion In Vivo	p. 109
Hormone Action and the Regulation of Metabolism	p. 125
Hormone-Fuel Interrelationships: Fed State, Starvation, and Diabetes Mellitus	p. 127
The Molecular Mechanism of Insulin Action and the Regulation of Glucose and Lipid Metabolism	p. 145
Insulin-like Growth Factors	p. 169
Glucagon and Glucagon-like Peptides	p. 179
Magnetic Resonance Spectroscopy Studies of Liver and Muscle Glycogen Metabolism in Humans	p. 195
Biology of Adipose Tissue	p. 207
Biology of Skeletal Muscle	p. 227
Regulation of Hepatic Glucose Metabolism	p. 243
Fat Metabolism in Diabetes	p. 265
Alterations in Protein Metabolism in Diabetes Mellitus	p. 275
Rodent Models for the Study of Diabetes	p. 291
Diabetes: Definition, Genetics, and Pathogenesis	p. 329
Definition, Diagnosis, and Classification of Diabetes Mellitus and Glucose Homeostasis	p. 331
Epidemiology of Diabetes Mellitus	p. 341
Genetics of Type 1 Diabetes	p. 355
Genetics of Type 2 Diabetes	p. 371
Type 1 Diabetes Mellitus	p. 399
Insulin Resistance and Its Role in the Pathogenesis of Type 2 Diabetes	p. 425
[beta]-Cell Dysfunction in Type 2 Diabetes Mellitus	p. 449
Maturity-Onset Diabetes of the Young	p. 463
Secondary Forms of Diabetes	p. 477
Syndromes of Extreme Insulin Resistance	p. 493
Diabetes in Minorities in the United States	p. 505
Diabetes-A Worldwide Problem	p. 525
Obesity and Lipoprotein Disorders	p. 531
Obesity	p. 533
Treatment of Obesity	p. 547
Pathophysiology and Treatment of Lipid Disorders in Diabetes	p. 563

Treatment of Diabetes Mellitus	p. 585
General Approach to the Treatment of Diabetes Mellitus	p. 587
Education in the Treatment of Diabetes	p. 597
Medical Nutrition Therapy	p. 611
Behavioral Research and Psychological Issues in Diabetes: Progress and Prospects	p. 633
Exercise in Patients with Diabetes Mellitus	p. 649
Principles of Insulin Therapy	p. 659
Iatrogenic Hypoglycemia	p. 671
Management of Hyperglycemia with Oral Antihyperglycemic Agents in Type 2 Diabetes	p. 687
Treatment of the Child and Adolescent with Diabetes	p. 711
Treatment of Older Adults with Diabetes	p. 737
Women's Health Issues in Diabetes Mellitus	p. 747
Pancreas and Islet Transplantation	p. 765
Diabetes and the Healthcare System: Economic and Social Costs	p. 777
Biology of the Complications of Diabetes	p. 793
Epidemiology of Late Complications of Diabetes: A Basis for the Development and Evaluation of Preventive Programs	p. 795
Relationship between Metabolic Control and Long-Term Complications of Diabetes	p. 809
Mechanisms of Diabetic Microvascular Complications	p. 823
Pathogenesis of Diabetic Neuropathy	p. 839
Pathogenesis of Diabetic Nephropathy	p. 853
Pathogenesis of Cardiovascular Disease in Diabetes	p. 867
Diabetic Complications: Clinical Aspects	p. 885
Diabetic Ketoacidosis and Hyperosmolar Hyperglycemic State	p. 887
Ocular Complications of Diabetes Mellitus	p. 901
Management of Diabetic Kidney Disease	p. 925
The Nervous System and Diabetes	p. 951
Hypertension in Diabetes Mellitus	p. 969
Diabetes Mellitus and Heart Disease	p. 975
Erectile Dysfunction and Diabetes	p. 999
Infection and Diabetes	p. 1017
Diabetes and Pregnancy	p. 1035
Cutaneous Manifestations of Diabetes Mellitus	p. 1049
Joint and Bone Manifestations of Diabetes Mellitus	p. 1061
Effects of Diabetes Mellitus on the Digestive System	p. 1069
Treatment of Diabetes in the Hospitalized Patient	p. 1103
The Diabetic Foot: Strategies for Treatment and Prevention of Ulcerations	p. 1111
Vascular Disease of the Lower Extremities in Diabetes Mellitus: Etiology and Management	p. 1123
Diabetes Mellitus and Wound Healing	p. 1133
Hypoglycemia and Islet Cell Tumors	p. 1145

Hypoglycemia	p. 1147
Endocrine Tumors of the Pancreas	p. 1177
Index	p. 1189
