

The Revised BS PD 6493 Assessment Procedure: Application to Offshore Structures p. 13

Factors Affecting Thermally Simulated HAZ Microstructures p. 35

Influence of Al, Ti, V and O on Acicular Ferrite Formation in TIG Weld Metal p. 45

The Influence of Composition of Heat Affected Zone Toughness of C-Mn Microalloyed Steels p. 57

Comparison Between Pulsed MIG and Short-Circuit MAG on Economical Aspects for Structural Building p. 73

Tube Thickness Influence in the Sheet/Tube Joint Deformation Obtained by Electrical Resistance Spot Welding p. 81

Hydrogen Content of Underwater Wet Welds Deposited by Rutile and Oxidizing Electrodes p. 85

Shielding Conditions of Local Cavity for Underwater Arc Spot Welding p. 93

Design Consideration for Wet Welded Joints p. 99

Amoco Trinidad Selects Wet Welding Repair Option p. 109

Wet Underwater Welding Trials With Commercial Manual Metal Arc Electrodes p. 113

Operational Parameter Fields in Hyperbaric Plasma Keyhole Welding of Mild Steel Line Pipe p. 125

Arc Voltage Measurements of the Hyperbaric MIG Process p. 133

Development of a Nozzle for Underwater Laser Beam Welds p. 141

Fatigue Cracking at Anode Support Brackets in an Offshore Jacket Structure p. 561

Effect of Stress and Temperature on Mode of Fracture After Reheat Cracking p. 151

Evaluation of Interface Strength of Plasma Sprayed Coatings by the Local Approach p. 157

Nickel Alloy Stud Bolts Failure: A Case History p. 165

Hydrogen Embrittlement of Cathodically Protected Duplex Stainless Steels in Seawater Containing Sulphides p. 173

Crack Arrestability of Ship Hull Steel Plate in Accidental Conditions: Application of High Arrestability Endowed Ultra Fine-Grain Surface Layer Steel p. 183

Fracture Toughness Requirement for Fracture Performance Evaluation of Welded Joints Based on the Local Approach p. 193

Probabilistic Fracture Toughness of Welded Joint for Offshore Structures p. 203

Evaluation of Stress Intensity Factor Solutions for Offshore Tubular Joints p. 521

Static Strength Assessment of Cracked Tubular Joints p. 211

Parameter Study on the Static Strength of Axially Loaded Multiplanar XX-Joints in Rectangular Hollow Sections p. 225

Welding Fabrication Defects in Two Offshore Steel Jacket Structures p. 233

Implications for Platform Re-Assessment Based on In-Service Damage Resulting From Accidental Loadings p. 247

Design of Hybrid Composite Tubulars p. 257
The Qualification of Advanced Composite Pipe for Use in Fire Water Deluge Systems on Open Type Offshore Oil Platforms p. 265
Machining Process and Superficial Hardness of Carbon-Carbon Composites p. 269
Critical Design Aspects of Dynamic Titanium Alloy Risers p. 275
Implications of Changes in the Post-Weld Heat Treatment Requirements on Properties of Steels and Welds for Offshore Structures p. 289
Post Weld Heat Treatment of Offshore Structures: A Fabricators Viewpoint p. 299
Corrosion Resistance of GTAW and EBW Welded Joints of DIN W. Nr. 1.4462 (UNS S31803) Effect of Post-Weld-Heat-Treatment p. 309
Design Approaches for Avoiding PWHT of North Sea Offshore Platforms p. 323
The Problems of Weld Metal or Heat Affected Zone Toughness in Offshore Structural Steels A Review of Fatigue Crack Growth Rates for Offshore Steels in Air and Seawater Environments p. 333
Evaluation and Calibration of Fatigue Cracking in Tubular Joints Using Improved Crack Growth Laws p. 341
An Experimental Investigation of Fatigue Crack Growth and Shape Development and Coalescing Cracks p. 349
Fatigue Life Evaluation and Full Scale Testing of an Aluminum Bridge p. 351
Predicting Overload-Affected Fatigue Crack Growth in Steels p. 359
Strain Behavior at Stable Crack Tip and Effect of Strength Mis-Match on Crack Growth Resistance p. 365
The Effect of Over-Matching on Brittle Crack Propagation Behavior in Welded Joints p. 375
Fracture Behaviour of Surface Cracked Wide Plates of High Strength Steel Containing Overmatched Repair Welds p. 383
Effect of Soft Root Weld Layer on Fracture Toughness of Under-Matched Weld Joints on QTB930 Steel Consequences of Weld Undermatching and Overmatching: Non-Uniform Hydrogen Distribution p. 403
Mechanical Properties of Cold-Rolled AISI 304LN Steel at Low Temperatures p. 411
High Strength Steels Used in Offshore Installations p. 417
The Influence of Cracks on the Static Strength of Tubular Joints p. 435
Review of the Corrosion Fatigue Performance of Medium to High Strength Structural Steels p. 451
Properties of Submerged Arc Welded TMCP-Steel Weldments p. 463
Internal Ultrasonic Examination of Ring Stiffened Tubular Joints p. 473
An Assessment of the Fatigue and Remaining Static Strength Performance of Ring Stiffened Joints p. 493
Fatigue Performance of Welded Aluminum Deck Structures p. 505
Author Index p. 569
