Preface

Why are Hydrothermal Systems Proposed as Plausible Environments for the Origin of Life?

Hydrothermal Systems: Their Varieties, Dynamics, and Suitability for Prebiotic Chemistry

Modern Life at High Temperatures

Aqueous Organic Geochemistry at High Temperature/High Pressure

Chemical Environments of Submarine Hydrothermal Systems

Chemical Markers of Prebiotic Chemistry in Hydrothermal Systems

Hydrothermal Organic Synthesis Experiments

An Experimental Approach to Chemical Evolution in Submarine Hydrothermal Systems

Mineral Theories of the Origin of Life and an Iron Sulfide Example

Future Research

Literature Cited (Chapters 1-10)
