Prelude to ecomorphology of fishes p. 7
Introduction: Perspectives on the ecomorphology of bony fishes p. 11
Development of ecomorphology of fishes in Russia p. 23
Ecomorphological correlates in ten species of subtropical seagrass fishes: diet and microhabitat utilization p. 37
A functional approach to ecomorphological patterns of feeding in cottid fishes p. 61
The influence of oral anatomy on prey selection during the ontogeny of two percoid fishes, Lagodon rhomboides and Centropomus undecimalis p. 79
Predicting patterns of prey use from morphology of fishes p. 97
Ecomorphology of retinal structures in zooplanktivorous haplochromine cichlids (Pisces) from Lake Victoria p. 115
Ecomorphological adaptations to bioluminescence in Porichthys notatus p. 133
Ecomorphology of solitary chemosensory cell systems in fish: a review p. 143
Tradeoffs between respiration and feeding in Sacramento blackfish, Orthodon microlepidotus p. 157
Time and tide wait for no fish: intertidal fishes out of water p. 165
Papyrus swamps and the respiratory ecology of Barbus neumayeri p. 183
Morphology, mechanics, and locomotion: the relation between the notochord and swimming motions in sturgeon p. 199
Evolutionary interplay between ecology, morphology and reproductive behavior in threespine stickleback, Gasterosteus aculeatus p. 213
Armor morphology and reproductive output in threespine stickleback, Gasterosteus aculeatus p. 225
Ecomorphological diversification and convergence in fluvial cichlid fishes p. 235
Phylogenetic systematics and biomechanics in ecomorphology p. 263
The role of ecomorphological studies in the comparative biology of fishes p. 287
Species and subject index p. 307
