Preface
Program Committee
List of Reviewers

Performance Management in Broadband Networks
Performance Evaluation of the Hierarchical Handoff Scheme for Wireless ATM Networks

SD+: Improving TCP Performance over ATM-UBR Service Using Selective Drop Buffer Management Scheme

Performance Analyses of Access Points In Cellular Wireless ATM Networks
Quality of Service in Internet Networks
Automating Internet Routing Behavior Analysis Using Public WWW Traceroute Services

An Evaluation of Different Marking Algorithms in Assured Forwarding Service
A Traffic Differentiation Method for IPv6 over ATM Networks

Multimedia Networks and Services
Managing Distributed Conferences with ISABEL
Benchmarking Issues of a Distributed Multimedia Database Management Service
Fault Management in a Multicast Routing Environment: Kernal Based Tree Protocol, a Case Study
Traffic Management in Isochronets Networks

Network Programmability
Inter-domain Integrity Management for Programmable Network Interfaces
A TINA-based Distributed Environment for Mobile Multimedia Applications
Development of Parlay-based Services Using UML and SDL

Policies and Service Management
Supporting Service Quality Assurance via Trouble Management
Policies for Feature Interaction Resolution
A Piggybacking Policy for Reducing the Bandwidth Demand of Video Servers

Advanced techniques for Network Management
Integrating IP Multicasting in Standard Network Management Protocols
Reducing the Response Time in Network Management by Using Multiple Mobile Agents
Hierarchical Rerouting Model for Fault Tolerance in Multi-Network Environment
NetDoM: An Information System for Network Documentation Management

Table of Contents provided by Blackwell's Book Services and R.R. Bowker. Used with permission.
