Preface

Dedication

Editorial Advisory Board

Introduction

Group Technology and Cellular Manufacturing: Updated Perspectives  p. 1

Product Design

Group Technology, Concurrent Engineering and Design for Manufacture and Assembly  p. 15

Classification and Coding Systems: Industry Implementation and Non-Traditional Applications  p. 37

Part Family Identification: The Role of Engineering Data Bases  p. 58

Part Family Formation and Classification Using Machine Learning Techniques  p. 77

Process Planning

GT and CAPP: Towards An Integration of Variant and Generative Approaches  p. 93

GT and CAPP: Observations on Past, Present and Future  p. 112

Design of Cellular Layouts: Part-Machine-Labor Grouping

Part-Machine-Labor Grouping: The Problem and Solution Methods  p. 131

Design of Manufacturing Cells: PFA Applications in Dutch Industry  p. 153

Cell Formation Using Genetic Algorithms  p. 185

A Bi-chromosome GA for Minimizing Intercell and Intracell Moves  p. 205

Design of Cellular Layouts: Use of Analytical and Simulation Models

Design / Analysis of Manufacturing Systems: A Business Process Approach  p. 221

Cellular Manufacturing Feasibility at Ingersoll Cutting Tool Company  p. 239

A Decision Support System For Designing Assembly Cells in Apparel Industry  p. 255

Evaluation of Functional and Cellular Layouts Through Simulation and Analytical Models  p. 273

Operations Planning and Control

Production Planning and Control Systems for Cellular Manufacturing  p. 289

Period Batch Control Systems for Cellular Manufacturing  p. 309

Scheduling Rules for Cellular Manufacturing  p. 321

Classification and Analysis of Operating Policies for Manufacturing Cells  p. 362

Cells and Flexible Automation

Cells and Flexible Automation: A History and Synergistic Application  p. 381

Human Factors in Cellular Manufacturing

Human Resource Management and Cellular Manufacturing  p. 401

Teams and Cellular Manufacturing: The Role of the Team Leader  p. 423

Integrated Implementation Experiences

Group Technology-Based Improvements in Danish Industry  p. 441

Benefits from PFA in Two Make-To-Order Manufacturing Firms in Finland  p. 458

Cellular Manufacturing at Zanussi-Electrolux Plant, Susegana, Italy  p. 475

Microsoft Ireland: Realigning Plant, Sales, Key Suppliers By Customer Family  p. 491
