List of Principal Contributors

Preface and Introduction of Professor Thomas E. Starzl p. 1
State of the Art Lecture: Chimerism after whole organ transplantation p. 4
Hans Popper Award 1992: Introduction of Dr Mario Rizzetto p. 13
Hans Popper Award: The hepatitis delta virus: a unique human pathogen p. 15
Physiology and pathophysiology of portal hypertension in cirrhotic and non-cirrhotic liver p. 27
Diagnostic tools in portal hypertension p. 41
Drugs for prevention and therapy of portal hypertension p. 50
Prophylactic and therapeutic surgical intervention in portal hypertension (stents, shunts) p. 67
Hyperdynamic circulation in chronic liver disease: significance and pathogenesis p. 77
Portal venous hypertension and pathogenesis of ascites p. 93
Treatment of ascites p. 111
Encephalopathy in acute liver failure p. 123
Liver disorders and sensory function p. 139
Liver and skin p. 151
Liver, joints, and bone tissue p. 158
Liver and skeletal muscles: muscle wasting in cirrhosis p. 164
Physiological basis of interactions between liver and kidney p. 173
Pathogenesis of hepatorenal syndrome p. 180
Hepatorenal syndrome: differential diagnosis and therapy p. 193
Interrelation between liver and kidney disease p. 213
Haematopoiesis in liver diseases: haematological effects of alcohol p. 233
Haemostasis in acute and chronic liver disease p. 242
Liver and insulin p. 253
Hypothalamic-pituitary-gonadal function in liver disease p. 265
Liver and pregnancy p. 275
Drug metabolism in health and disease p. 285
Drug therapy in liver disease p. 294
Use of narcotics in liver disease p. 304
Alpha-1-antitrypsin deficiency p. 315
Wilson's disease p. 331
Clinical manifestation of genetic haemochromatosis: pathophysiological aspects of iron overload disease p. 337
Advances in gene therapy for genetic liver disease p. 344
Liver growth factors (hepatotropic factors) p. 351
Liver and unspecific defence reactions p. 362
Liver and immune response p. 380
Closing remarks p. 393
Index p. 395
