Preface

Contributors

K. M. Sivanandaiah: Twenty-Five Years of Peptide Research in Central College, Bangalore University, Bangalore, India

Catalytic Transfer Hydrogenation and Hydrogenolysis by Formic Acid and Its Salts

Syntheses of Natriuretic Peptides Using a New S-Protecting Group, S-Trimethylacetamidomethyl (Tacm) Group

Solid-Phase Synthesis of Cyclic Peptides

Enzymatic Semisynthesis of Growth Hormone-Releasing Factor and Potent Analogs

Recent Developments in the Synthesis of Glycopeptides

Synthesis, Characterizations, and Medical Applications of Bioelastic Materials

Synthetic Peptides in the Study of Viral Fusion, Inflammation, and Atherosclerosis

"De Novo" Engineering of Peptide Immunogenic and Antigenic Determinants as Potential Vaccines

Complementary Peptides: Applications of the Molecular Recognition Theory to Peptide and Protein Purification and Design

Conformational Studies on Model Peptides and Peptidomimetics

The Design and Synthesis of Long-Acting Oxytocin Antagonists Substituted in Positions 2, 7, and 8

Calcitonin: A Minireview

Importance of Ca$^{2+}$-Hormone Interaction in Conformation-Activity Correlations

The Binding of Peptides and Proteins to Membranes Containing Anionic Lipid

Synthetic Peptides Mimic the Active Sites of Fibronectin Receptors from Gram-Positive Bacteria

Analyses of Various Folding Patterns of the HIV-1 Loop

Regulation of Human Immunodeficiency Virus Gene Expression by the Tat and Rev Proteins

Index
