Preface
Organizing Committees

Workshop Participants

CoNus: Workspace-based Intuitive Collaboration in Virtual Enterprises p. 3
The Virtual Workspace System (VWS): An Enabling Technology for Collaborating Engineering Applications p. 10
DEM: A Data Exchange Facility for Virtual Enterprises p. 17
Capturing Geometry Rationale for Collaborative Design p. 24
MultiDisciplinary Design for Uninhabited Air Vehicles p. 29
Agent Based Design and Simulation of Supply Chain Systems p. 36
A Product Information System based on an Object-Oriented Internet Database System p. 43

A CORBA-based Approach to Design Gateways for Multidatabase Systems p. 49
Internet and Intranet Usage in a Communications Infrastructure for Virtual Construction Project Teams p. 56
Working Group Report on Information Infrastructure for Global and Virtual Enterprises p. 62
A Framework for Distributed Web-based Microsystem Design p. 69
Interest Based Collaboration Framework p. 75
Agent-Based Digital Libraries: Driving the Information Economy p. 82
A Multi-Agent System for Distributed Information Retrieval on the World Wide Web p. 87
How to Integrate Mobile Agents into Web Servers p. 94
WebVector: Agents with URLs p. 100
A Logic Programming Infrastructure for Remote Execution, Mobile Code and Agents p. 106
A Multi-Agent Process Centered Environment Integrated with the WWW p. 113
Coordinating Java Agents with Multiple Coordination Language on the Berlinda Platform p. 121
Working Group Report on Collaborative Agents in Distributed Web Applications p. 133
Design of the Interactive Sharing Transfer Protocol p. 140
Developing Social Virtual Worlds using NetEffect p. 148
Distributing MOO-Based Shared Worlds p. 155
Maximising Concurrency and Scalability in a Consistent, Causal, Distributed Virtual Reality System Whilst Minimising the Effect of Network Delays p. 161
Domain-Driven Reconfiguration in Collaborative Virtual Environments p. 167
A Semantic Approach of Virtual Worlds Interoperability p. 173
Virtual Reality Transfer Protocol (VRTP) Design Rationale p. 179
Communication Visibility in Shared Virtual Worlds p. 187
Boundaries, Awareness and Interaction in Collaborative Virtual Environments p. 193
Bringing People Together - An Infrastructure for Shared Virtual Worlds on the Internet p. 199

Development of a Public Key Infrastructure across Multiple Enterprises p. 214
A Proposed Security Management Framework for the Global Information Community p. 220
Intranet Security Framework based on Short-Lived Certificates p. 228
Secure Mobile IP using IP Security Primitives p. 235
LAVA: Secure Delegation of Mobile Applets: Design, Implementation, and Applications p. 242
Extended Password Key Exchange Protocols Immune to Dictionary Attacks p. 248
From Protocol Specifications to Flaws and Attack Scenarios: An Automatic and Formal Algorithm p. 256
Secure Collaboration Technology for Healthcare Enterprises p. 263
Secure Workflow Environment p. 269
Providing Secure Environments for Untrusted Network Applications p. 277
Enterprise Security Applications of Partition Rule Based Access Control (PRBAC) p. 285
How Role Based Access Control is Implemented in SESAME p. 293
Using NFS to Implement Role-Based Access Control p. 299
Web Mediated Design Courses: Challenges and Realities in Teaching Electronic Collaboration p. 314
Reliability, Scalability and Robustness Issues in IRI p. 320
Process-Centered Environments for Web-Based Instructional Modules p. 327
The Web as a Learning Environment p. 333
An Infrastructure for Collaborative Teleteaching p. 341
Distance Skill Learning with Special Attention Paid to the Nonverbal Aspect p. 347
Working Group Report on Distance Learning p. 353
Index of Authors p. 355
Table of Contents provided by Blackwell's Book Services and R.R. Bowker. Used with permission.
