Partitioning between aerosol and NO\textsubscript{2} absorption in the UV spectral region

Measurements of O\textsubscript{3}, SO\textsubscript{2}, NO\textsubscript{2}, and HCHO column amounts using a Brewer spectrometer

Spectral measurements of the polarization of UV sky radiancé

Ozone and aerosol optical depth retrievals with UV rotating shadowband spectroradiometer

Derived direct irradiance from high resolution UV spectroradiometer uses : Langley regression radiometric calibration, ozone column, and aerosol retrievals

Variability of spectral UV irradiance at Thessaloniki, Greece, from 15 years of measurements

UV climatology at Palmer Station, Antarctica, based on version 2 NSF network data

Radiation measurements at the German Antarctic Neumayer Station

Intercomparison of solar UV direct irradiance spectral measurements at Izana in June 2005

Long-term UV irradiance changes over Moscow and comparisons with UV estimates from TOMS and METEOSAT

New USDA UVB synthetic spectra algorithm

The measurement and modeling of broadband UV-A irradiance

Average surface albedo measurements in the UV, IR, and TSR on the Holy Mosque and places in Makkah, Saudi Arabia

Estimation of global solar UV index from UV-B irradiance measured with a narrowband UV-B radiometer

Stability characteristics of 1000 watt FEL-type QTH lamps during the seasoning and screening process

Short-term impacts of elevated UV-B radiation on soybeans

Are plants grown under low visible irradiance sensitive to low levels of ultraviolet-B radiation?

Genotypic variation of soybean and cotton crops in their response to UV-B radiation for vegetative growth and physiology

Development of UV-B screening compounds in response to variation in ambient levels of UV-B radiation

Health impacts of ultraviolet radiation in urban ecosystems : a review

Exposure to UV radiation and human health

Solar UVA exposures

Economic burden analysis for UV radiation and vitamin D for colorectal cancer in the United States

Does absorption of ultraviolet B by stratospheric ozone and urban aerosols influence colon and breast cancer mortality rates? : contributions from NASA and NOAA data

The effects of smoke and dust aerosols on UV-B radiation in Australia from ground-based and satellite measurements

Evaluation of environmental UV doses by empirical WL4UV model and multichannel radiometer

Sky and surface distribution of erythema action ultraviolet radiation
Measurement of spectral signatures of invasive plant species with a low cost spectrometer

Hyperspectral imaging of UVR effects on fungal spectrum

Effect of supplemental ultraviolet radiation on the concentration of phytonutrients in green and red leaf lettuce (Lactuca sativa) cultivars

Application of CCD array digital fiber optic spectrometers in determination of within-tree and within-canopy irradiances of UV-B radiation

Characterization and error analysis of an operational retrieval algorithm for estimating column ozone and aerosol properties from ground-based ultra-violet irradiance measurements
