A stochastic technique for remote sensing of ocean color
Cloud effects on chlorophyll retrieval algorithm of MODIS
Estimation of aerosol altitude from reflectance ratio measurements in the O\[\text{subscript 2}\] A-band
Satellite ocean color observation with 250 m spatial resolution using ADEOS-II GLI

Evaluation of the CMODIS-measured radiance
Estimation of chlorophyll-a concentration from satellite ocean color data in Upper Gulf of Thailand
Spectral signature characters based on measurement in situ of high-turbid water in Yangtze River estuary
Evaluation of the impact of backscatter spectral characteristics on CHI retrievals In coastal waters
An empirical method to estimate bulk particulate refractive Index for ocean satellite applications
Artificial neural network (ANN)-based simultaneous Inversion of optically active ocean-colour variables from IRS-P4 OCM data
Ocean color monitor sensor
MAUVE/SWIPE : an imaging instrument concept with multi-angular, -spectral, and -polarized capability for remote sensing of aerosols, ocean color, clouds, and vegetation from space
Preliminary study on coastal water quality classification by satellite data
Suspended sediment dynamics regulated by the macrotidal regime : evidences from the OCM P-4 data
Capabilities of three satellite Images to map coral reefs at Dong-Sha Atoll
Satellite radar altimetry from open ocean to coasts : challenges and perspectives

Improved satellite altimetry for the observation of coastal ocean dynamics : a case study for the Northern Indian Ocean
Prediction of coastal winds using scatterometer and tower observations
Characteristics of merchant vessels In spaceborne SAR imagery
Ocean color product inter-sensor evaluation for HAB bulletins
Integrated coastal zone management plan and coastal zone information system for Mangalore Coast, West Coast of India
Remote sensing analysis of spatio-temporal evolvement of estuarine tidal flat of Qiantangjiang River, China
Landform and land use changes in CRZ of Mandovi River, Goa
Basin scale distribution of Trichodesmium spp. in the Arabian Sea using Oceansat I/OCM

Summer chlorophyll-[alpha] distribution In eastern Arabian Sea off Karnataka-Goa coast from satellite and in-situ observations
Seasonality In subsurface chlorophyll maxima in the Arabian Sea : detection by IRS-P4/OCM and implication of it to primary productivity
Environmental studies of the Arabian Sea using remote sensing and GIS
A quantitative method for describing the seasonal cycles of surface chlorophyll in the Indian Ocean
Biological Impact of Hurricane ignacio (2003) in the Eastern Pacific Ocean as observed through MODIS data
On the warm pool dynamics in the southeastern Arabian Sea during April-May 2005 based on the satellite remote sensing and ARGO float data

Interannual variability of the Equatorial jets In the Indian Ocean from merged altimetry data

Chlorophyll-specific absorption of phytoplankton In waters of Zhujiang River mouth, China

Bio-optical model of chromatic dissolved organic matter in Lake TaiHu, China

General exact Rayleigh scattering look-up-table for ocean color remote sensing

Atmospheric correction for channel 1 and 2 of MODIS

A study of QuikSCAT measured backscattering coefficient data over global natural targets

Ecosystem service value assessment of coastal area in Lianyungang City using LANDSAT images

Study on seasonal variety of ocean color and delimitation between river and sea in Yellow River Estuary based on TM images

Satellite and ship studies of phytoplankton In the Northeastern Arabian Sea during 2000-2006

HydroPPT: a hydrolight pre- and post-data processing toolkit

Closure between remote sensing reflectance and Inherent optical properties

Satellite observation of a red tide In the East China Sea during 2005

Atmospheric correction of satellite ocean color data In turbid coastal waters

Secchi depth analysis using bio-optical parameters measured In the Arabian Sea

Textural analysis for the detection of dust Clouds from Infrared satellite images

Progressive atmospheric correction of satellite ocean-color imagery
